$$\text{Ratio (Opening)} = \text{Hypothetical Redemption Value (Opening)} \times (-1) \times \text{Leverage Factor} / \text{Relevant Reference Price (r-1)}$$

- (ii) Close of Trading

Following the Close of Trading, the Ratio (the **"Ratio (Closing)"**) will be adjusted as follows:

$$\text{Ratio (Closing)} = \text{Hypothetical Redemption Value (Closing)} \times (-1) \times \text{Leverage Factor} / \text{Relevant Reference Price}$$

On the First Trade Date, the adjustment will be made only after the Close of Trading.

- (c) Upon the occurrence of an Extraordinary Adjustment Event, the respective Ratio (the **"Ratio (Reset)"**) will be adjusted as follows:

$$\text{Ratio (Reset)} = \text{Hypothetical Redemption Value (Reset)} \times (-1) \times \text{Leverage Factor} / \text{Adjustment Price}$$

- (d) On each Dividend Adjustment Date, the Ratio (Opening) will be adjusted based on the following formula:

$$\text{Ratio (Opening)} = \text{Hypothetical Redemption Value (Opening)} \times (-1) \times \text{Leverage Factor} / (\text{Relevant Reference Price (r-1)} - \text{Dividend Deduction})$$

The Calculation Agent will publish the Ratio after its specification on the Website of the Issuer under the respective product details.

If the Reference Rate Screen Page is not available at the Reference Rate Time, or does not display the applicable rate, the Calculation Agent will request each of the Reference Banks to provide its rates offered to prime banks in the interbank market for the Reference Rate Financial Centre at approximately the Reference Rate Time, on the respective Interest Determination Date for deposits in the Underlying Currency for the respective Designated Maturity in a representative amount.

If at least two of the Reference Banks provide the Calculation Agent with such quotations, the respective Reference Rate will be the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such quotations.

If on any Interest Determination Date only one or none of the Reference Banks provides the Calculation Agent with such quotations, the respective Reference Rate will be the arithmetic mean (rounded as described above) of the rates quoted by major banks in the Reference Rate Financial Centre, determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB), at approximately the Reference Rate Time, on the respective Interest Determination Date for deposits in the Underlying Currency to leading European banks for the respective Designated Maturity.

The Reference Rate is not less than -15%.

"Reference Rate Call Event" means the following event:

- (d) the Reference Rate otherwise ceases to exist; or
- (e) the relevant central bank or a supervisory authority determines and publishes a statement that the relevant central bank or supervisory authority has determined that such Reference Rate as of the relevant time of determination hereunder no longer represents the underlying market and economic reality that such Reference Rate is intended to measure and that representativeness will not be restored,

BGB). In this case, any reference to the Relevant Exchange in the Terms and Conditions shall be deemed to refer to the Replacement Exchange.

"Relevant Reference Price" means the Reference Price on the respective Calculation Date. With respect to an Adjustment Day which is not a Calculation Date, the last

available Reference Price shall be the Relevant Reference Price. In the case of a Market Disruption Event on a Calculation Date which is continuing to the Start of Trading on the following Adjustment Day, the Issuer will determine the Relevant Reference Price in its reasonable discretion (§ 315 et seq. BGB).

"Relevant Reference Price (r-1)" means, with respect to the respective Adjustment Day, the Reference Price on the immediately preceding Calculation Date.

"Relevant Reference Price (final)" means the Reference Price on the respective Valuation Date.

"Risk Management Fee" means a value expressed as per cent. per annum, which forms the risk premium for the Issuer. The Initial Risk Management Fee for the First Trade Date is specified in § 1 of the Product and Underlying Data. The Calculation Agent adjusts the Risk Management Fee on each Financing Costs Adjustment Date within its reasonable discretion (§ 315 et seq. BGB) to the current market circumstances so that the ratio of the Risk Management Fee to the relevant market parameters (especially volatility of the Underlying, liquidity of the Underlying, hedging costs and lending costs (if any)) remains substantially unchanged. The adjusted Risk Management Fee is valid during the period of the respective Financing Costs Adjustment Date (excluding) to the immediately following Financing Costs Adjustment Date (including). The Risk Management Fee shall not be higher than 15%. The Calculation Agent shall after its specification notify the valid Risk Management Fee in each case pursuant to § 6 of the General Conditions.

- (b) On each Adjustment Day, the Strike will be adjusted twice daily at the Start of Trading and after the Close of Trading as follows:

- (i) Start of Trading

At the Start of Trading, the Strike (the **"Strike (Opening)"**) will be adjusted as follows:

$\text{Strike (Opening)} = \text{Relevant Reference Price (r-1)} \times \text{Leverage Adjustment Factor} \times (1 + \text{Financing Costs})$

- (ii) Close of Trading

Following the Close of Trading, the Strike (the **"Strike (Closing)"**) will be adjusted as follows:

$\text{Strike (Closing)} = \text{Relevant Reference Price} \times \text{Leverage Adjustment Factor}$

On the First Trade Date, the adjustment will be made only after the Close of Trading.

- (c) Upon the occurrence of an Extraordinary Adjustment Event, the respective Strike (the **"Strike (Reset)"**) will be adjusted as follows:

$\text{Strike (Reset)} = \text{Adjustment Price} \times \text{Leverage Adjustment Factor}$

- (d) On each Dividend Adjustment Date, the Strike (Opening) will be adjusted based on the following formula:

$\text{Strike (Opening)} = (\text{Relevant Reference Price (r-1)} - \text{Dividend Deduction}) \times \text{Leverage Adjustment Factor} \times (1 + \text{Financing Costs})$

The Strike shall be rounded up or down to six decimals, with 0.0000005 being rounded upwards and shall never be less than zero.

§ 3

Exercise Right, Exercise, Knock-out, Exercise Notice, Extraordinary Automatic Exercise, Suspension of the Exercise Right, Payment

- (1) *Exercise Right:* Subject to the occurrence of a Knock-out Event, the Security Holder shall be entitled, according to the Terms and Conditions of these Securities, to demand for each Security the payment of the Differential Amount from the Issuer.
- (2) *Exercise:* The Exercise Right can be exercised by the Security Holder on each Exercise Date prior to 10:00 a.m. (Munich local time) pursuant to the provisions of paragraph (4) of this § 3.
- (3) *Knock-out:* Upon the occurrence of a Knock-out Event, the Exercise Right forfeits and the Minimum Amount will be paid for each Security.
- (4) *Exercise Notice:* The Exercise Right shall be exercised by the Security Holder by transmission of a duly completed written Exercise Notice (the "**Exercise Notice**") to the Principal Paying Agent possibly per facsimile, using the form of notice which may be obtained from the Website of the Issuer or, respectively by specifying all information and declarations to the facsimile number set out in such form of notice and by transferring the Securities stated in the Exercise Notice to the account of the Issuer, which is set out in the respective form of the Exercise Notice. For this purpose the Security Holder must instruct its depository bank, which is responsible for the order of the transfer of the specified Securities.

The Exercise Right is deemed to be effectively exercised on that day on which (i) the Principal Paying Agent receives the duly completed Exercise Notice prior to 10:00 a.m. (Munich local time) and (ii) the Securities specified in the Exercise Notice will be credited to the account of the Issuer prior to 5:00 p.m. (Munich local time).

For Securities, for which a duly completed Exercise Notice has been transmitted in time, but which has been credited to the Issuer's account after 5:00 p.m. (Munich local time), the Exercise Right is deemed to be effectively exercised on that Trading Day, on which the Securities will be credited to the account of the Issuer prior to 5:00 p.m. (Munich local time).

For Securities, for which a Security Holder transmits an Exercise Notice, which does not comply with the aforementioned provisions, or, if the Securities specified in the Exercise Notice have been credited to the Issuer's Account after 5:00 p.m. (Munich local time) of the fifth Banking Day following the transmission of the Exercise Notice, the Exercise Right is deemed to be not effectively exercised.

The amount of the Securities for which the Exercise Right shall be exercised, must comply with the Minimum Exercise Amount or an integral multiple thereof. Otherwise the amount of the Securities specified in the Exercise Notice will be rounded down to the nearest multiple of the Minimum Exercise Amount and the Exercise Right is deemed to be not effectively exercised with regard to the amount of Securities exceeding such amount. An Exercise Notice on fewer Securities than the Minimum Exercise Amount is invalid and has no effect.

Securities received by the Issuer and for which no effective Exercise Notice exists or the Exercise Right deems to be not effectively exercised, will be retransferred by the Issuer without undue delay at the expense of the relevant Security Holder.

Subject to the aforementioned provisions, the transmission of an Exercise Notice constitutes an irrevocable declaration of intent of the relevant Security Holder to exercise the respective Securities.

- (5) *Extraordinary Automatic Exercise:* Subject to the occurrence of a Knock-out Event, the Securities shall be extraordinary automatically exercised on the tenth Banking Day ("**Extraordinary Automatic Exercise Date**") following the day on which the Strike has been specified for the first time as zero (0) as well as following the day on which the respective Hypothetical Redemption Value (Closing) has been specified for the first time as EUR 0.20 or below, and the Differential Amount will be paid for each Security. In case of an extraordinary automatic exercise the Extraordinary Automatic Exercise Date is deemed to be the respective Valuation date.
- (6) *Suspension of the Exercise Right:* The Exercise Right cannot be exercised:
 - (a) during the period between the day, on which the company specified in § 1 of the Product and Underlying Data (the "**Company**") publishes an offer to its shareholders to acquire (a) new shares or (b) warrants or other securities with conversion or option rights on shares of the Company, and the first day after the expiration of the period determined for the exercise of the purchase right;

- (b) prior and after the shareholders' meeting of the Company, in the period from (and including) the last depositary day for shares and to (and including) the third Banking Day after the shareholders' meeting.

If the exercise of the Exercise Right is suspended on an Exercise Day according to the previous sentence, the Exercise Date will be postponed to the first Banking Day after such suspension.

- (7) *Payment:* The Differential Amount will be paid five Banking Days after the respective Valuation Date pursuant to the provisions of § 6 of the Special Conditions.

The Minimum Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred, pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Differential Amount

- (1) *Differential Amount:* The Differential Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

$$\text{Differential Amount} = (\text{Strike} - \text{Relevant Reference Price (Final)}) \times \text{Ratio}$$

However, the Differential Amount is not lower than the Minimum Amount.

- (2) When calculating or, respectively, determining the Differential Amount, no fees, commissions or other costs charged by the Issuer or a third party authorised by the Issuer, will be taken into account.

§ 5

Issuer's Regular Call Right, Issuer's Extraordinary Call Right

- (1) *Issuer's Regular Call Right:* The Issuer may call the Securities in whole but not in part at each Exercise Date (the "**Regular Call Right**") and redeem them pursuant to § 4 (1) of the Special Conditions at the Differential Amount. In the case of such a call, the Exercise Date, at which the Issuer exercises its Regular Call Right (the "**Call Date**") is deemed to be the Valuation Date. The Exercise Right remains unaffected until the Call Date. With the beginning of the Call Date all Exercise Rights forfeit.

The Issuer will give notice of such call at least one month prior to the Call Date pursuant to § 6 of the General Conditions. Such notice shall be irrevocable and will specify the relevant Call Date.

The Differential Amount will be paid five Banking Days after the Call Date pursuant to the provisions of § 6 of the Special Conditions.

- (2) *Issuer's Extraordinary Call Right:* Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice. The application of §§ 313, 314 BGB remains reserved.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the tenth Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) under then prevailing circumstances.

The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under the Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards. However, at least the Minimum Amount shall be paid.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on a Valuation Date, the respective Valuation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Valuation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 1 consecutive Banking Days the Calculation Agent shall determine in its reasonable discretion (§ 315 et seq. BGB) the respective Reference Price required for the calculations

or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on the 2nd Banking Day, taking into account the financial position of the Security Holders.

§ 8

Adjustments, Type of Adjustment, Replacement Specification, Notifications, Legal Provisions

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 in its reasonable discretion (§ 315 et seq. BGB), taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

Within the context of an Adjustment the Calculation Agent proceeds as follows:

- (a) *Adjustment in accordance with the Determining Futures Exchange:* In general, the Calculation Agent will undertake the Adjustment in terms of content and timing in a way that to the greatest extent matches the designated Adjustment by the Determining Futures Exchange regarding the Underlying Linked Derivatives. The Calculation Agent is, however, also authorised to make an Adjustment if there is no Adjustment made to the Underlying Linked Derivatives by the Determining Future Exchange. In this case the Calculation Agent will make the Adjustment, if any, in accordance with the rulebook of the Determining Futures Exchange with respect to the Underlying Linked Derivatives.
- (b) *Deviating Adjustments:* In particular in the following cases the Calculation Agent is authorised to make Adjustments deviating from the Adjustments made by the Determining Futures Exchange in order to take into account the Adjustment Goal in an appropriate manner.
- (i) The Adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is impossible for the Issuer or the Calculation Agent or technically not feasible within reasonable economic efforts; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB);

- (ii) The Adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is unreasonable for Securities Holders, the Calculation Agent or the Issuer (e.g. because the Issuer would have to breach internal trading restrictions in order to hedge its payment obligations under the Securities); whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB); or
 - (iii) The Adjustment envisaged by the Determining Futures Exchange is not suitable to meet the Adjustment Goal; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).
- (c) *Reversal of Adjustment:* If an Adjustment Event that has occurred subsequently ceases to exist (for example, if the effectiveness of a merger subsequently ceases to exist due to the agreement on the merger or a sovereign prohibition or lack of approval), the Calculation Agent shall be entitled to reverse a previously made Adjustment pursuant to this § 8 if this corresponds to the Adjustment Goal.
- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measures in accordance with paragraph (1) above:
 - (a) *Adjustment of Adjustable Product Data:* The Calculation Agent may redefine the Adjustable Product Data based on an adjustment factor (e.g. in case of a capital increase against cash contribution, issue of securities with options or conversion rights in shares, a capital increase from company funds, a distribution of special dividends or other measures undertaken by the company, that issued the Underlying or a third party, that impacts the computed value of the Underlying not only in an insignificant way, based on a change of a legal or economic situation, in particular a change of the fixed assets or equity of the company).
 - (b) *Replacement of the Underlying:* In case of a take-over or a merger or similar measure with respect to the Underlying the Calculation Agent can replace the Underlying with the share of the successor of the issuer of the original Underlying or with another share of – inter alia – comparable liquidity and industry affiliation as the original Underlying (the "**Replacement Underlying**"). Furthermore, until completion of the take-over or merger (excluding), the Calculation Agent may determine that either the shares submitted for sale or submitted for exchange are to be the Replacement Underlying.

In case of a split or a similar measure with respect to the Underlying the Calculation Agent may determine (i) a basket of shares and/or securities or (ii) a basket of shares and/or securities and a cash component to be the Replacement Underlying. The Calculation Agent may exclusively select, in deviation from the Adjustment made by the Determining Futures Exchange, the share with the highest market capitalisation or another share from the basket of shares determined by the Determining Futures Exchange with – inter alia – comparable

liquidity and industry affiliation as the original Underlying to be the Replacement Underlying. In this case the Calculation Agent will, if necessary, determine an adjustment factor by itself to meet the Adjustment Goal and will undertake an Adjustment according to paragraph 2 (a) above.

If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (4) below), every reference to Underlying in the Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

- (3) *Replacement Specification:* If a price of the Underlying published by the Relevant Exchange and required pursuant to the Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.
- (4) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holders according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.
- (5) *Legal Provisions:* The application of §§ 313, 314 BGB remains reserved.

§ 9

Replacement Reference Rate, Adjustments, Interest Rate Adjustment Factor or Spread, Notifications, Legal Provisions

- (1) *Replacement Reference Rate:* Upon the occurrence of a Reference Rate Cessation Event on or preceding an Interest Determination Date, the Reference Rate will be replaced by the Calculation Agent with an economically suitable reference rate (the "**Replacement Reference Rate**"). The Reference Rate should be replaced by a Replacement Reference Rate that pursuant to the following sequence of adjustment methods (each an "**Adjustment Method Level**")
 - (a) has been publicly and permanently declared as the replacement for the original Reference Rate by the administrator of the Reference Rate, the relevant central bank or a supervisory authority and may be used as a Replacement Reference Rate in accordance with the governing law of the Securities, or – in the event and as long as this is not the case –
 - (b) is typically used as a Replacement Reference Rate for comparable securities (in particular with a view to the Underlying Currency, the type of interest payment and the term), or – in the event and as long as this is not the case –
 - (c) is typically used as a reference rate for (x) interest rate swaps (fixed/floating interest) in the Underlying Currency or (y) exchange traded interest futures with a comparable term, or – in the event and as long as this is not the case –

- (d) is determined by the Issuer in its reasonable discretion (§ 315 et seq. BGB) with a view to the Underlying Currency and the expected term in a reasonable economical manner, based on the general interest rate level at the relevant point in time in Germany.

The Replacement Reference Rate is – subject to the occurrence of a new Reference Rate Cessation Event – applicable to all subsequent interest periods. With respect to subsequent Interest Determination Dates, however, a new adjustment may be made with respect to the preceding Reference Rate Cessation Event if an adjustment based on a prior ranking Adjustment Method Level pursuant to the sequence (a) to (d) is then possible at that time. This includes the change from a daily interest rate previously selected under a specific Adjustment Method Level to a previously unpublished term-based interest rate.

- (2) *Adjustments:* If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of the Securities in its reasonable discretion (§ 315 et seq. BGB). This includes in particular:

- (a) the method of calculation or determination of the Financing Costs; this includes the application of an interpolation or a calculation by means of a formula on a daily interest basis;
- (b) the method for determination of the Reference Rate (including any rounding rules);
- (c) the Designated Maturity, which can be shortened or extended;
- (d) the relevant Screen Page, Reference Rate Time and/or Reference Financial Centre;
- (e) the Interest Determination Dates, and/or
- (f) the business day convention according to § 6 (2) of the Special Terms and Conditions.

Such adjustments shall enable the Calculation Agent

- (i) to use the Replacement Reference Rate in accordance with the then prevailing market practice
or – to the extent that the Calculation Agent determines that the application of any part of such prevailing market practice is not technically feasible, a prevailing market practice for the Replacement Reference Rate does not exist or does not lead to economically meaningful results –
- (ii) to use the Replacement Reference Rate in such a manner as determined by the Calculation Agent necessary for its use as the Replacement Reference Rate for the Securities; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

- (3) *Interest Rate Adjustment Factor or Spread:* In addition to an adjustment under paragraph (2), the Calculation Agent may also determine an adjustment factor or spread for the purpose of determining or calculating the Financing Costs in such a way that the financial position of the Security Holders remains unchanged to the greatest extent possible.
- (4) *Notifications:* The Calculation Agent shall notify the Issuer without undue delay of the Replacement Reference Rate pursuant to paragraph (1) and the adjustments and determinations made pursuant to paragraphs (2) and (3) as well as the date of first application, who will notify the Security Holders and any exchange, on which the Securities are listed and whose provisions require a notification to the exchange pursuant to § 6 of the General Conditions of the Securities.
- (5) *Legal Provisions:* The application of §§ 313, 314 BGB remains reserved.

What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the consequences of the Russian-Ukrainian conflict, a strong rise in energy costs and raw material prices, severe supply bottlenecks and further political uncertainties such as the tensions between the US and China about trade and Taiwan could lead to a more severe slowdown. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Short Factor Mini Future Securities (Non-Quanto)

Underlying: Deutsche Bank AG (ISIN: DE0005140008)

The Securities are issued as bearer bonds within the meaning of § 793 German Civil Code (*Bürgerliches Gesetzbuch*). The Securities will be represented by a global note and are freely transferable. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Issuance, Nominal Amount and Term

The Securities will be issued on 9 November 2023 in Euro (EUR) (the "**Specified Currency**"), without a nominal amount, as 200,000 Certificates. The Securities have an indefinite term. They continue until the exercise of the Exercise Right by the Security Holder or the exercise of the Issuer's Regular Call Right by the Issuer, unless a Knock-out Event occurs. Upon the exercise of such a right, the term of the Securities will end on the respective Exercise Date.

Exercise Right

Subject to the occurrence of a Knock-out Event or unless the Securities are terminated by the Issuer, the Security Holder has the right to demand of the Issuer the payment of the Differential Amount per Security (Exercise Right).

The Exercise Right may be exercised by the Security Holder on each Exercise Date.

The Differential Amount will be calculated by subtracting the Relevant Reference Price (final) from the Strike. The difference will be multiplied by the Ratio.

The Differential Amount will not be lower than EUR 0.001.

Upon the effective exercise of the Exercise Right, the Differential Amount will be paid five Banking Days after the respective Valuation Date.

Extraordinary Adjustment Event

Upon the occurrence of an Extraordinary Adjustment Event, the Strike, the Barrier, the Ratio and the Hypothetical Redemption Value will be extraordinarily adjusted intraday.

An Extraordinary Adjustment Event has occurred if, with continuous observation from the 7 November 2023, the price of the Underlying at any point in time is equal to or higher than the Barrier.

Knock-out

Upon the occurrence of a Knock-out Event as a result of an Extraordinary Adjustment Event, the Exercise Right lapses and the Minimum Amount will be paid for each Security.

The Minimum Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred.

A Knock-out Event occurs if the Adjustment Price during the relevant Observation Period is equal to or higher than the then current Strike. The Adjustment Price is the highest price of the Underlying during the relevant Observation Period.

Issuer's Regular Call Right

The Issuer may terminate the Securities on any Exercise Date in full but not in part and repay them at the Differential Amount.

Additional definitions and product terms

Adjustment Day means the 7 November 2023 and each subsequent calendar day (other than a Saturday or Sunday).

Exercise Date means the last trading day of each month of January, February, March, April, May, June, July, August, September, October, November and December of each year.

On each Adjustment Day, the Barrier, the Hypothetical Redemption Value, the Ratio and the Strike will be adjusted twice daily at the Start of Trading and after the Close of Trading. On the 7 November 2023, the adjustment will be made only after the Close of Trading:

- On the 7 November 2023, the Strike is equal to the Initial Strike. The adjustment is made on the basis of the Relevant Reference Price and the Leverage Adjustment Factor. In addition, the proportionate financing costs of the Issuer are taken into account. The financing costs are determined on the basis of a current market interest rate (Reference Rate) and the applicable Risk Management Fee. As a result, the Strike usually approaches the current price of the Underlying, provided the price of the Underlying does not fall accordingly. In the case of dividend payments of the underlying, an additional adjustment is made.
- On the 7 November 2023 the Barrier is equal to the Initial Barrier. The adjustment is made on the basis of the current Strike and Spread. As a result, the Barrier usually approaches the current price of the Underlying, provided the price of the Underlying does not fall accordingly.

- On the 7 November 2023 the Ratio is equal to the Initial Ratio. The adjustment is made on the basis of the Hypothetical Redemption Value, the Leverage Factor and the Relevant Reference Price. In the case of dividend payments of the underlying, an additional adjustment is made.
- On the 7 November 2023 the Hypothetical Redemption Value is equal to the Initial Hypothetical Redemption Value. The adjustment is made on the basis of the Relevant Reference Price, the Strike and the Ratio.

Observation Period is a period of five minutes following the occurrence of the Extraordinary Adjustment Event.

Calculation Date means each day on which the Underlying is traded on the Relevant Exchange.

Valuation Date means the Exercise Date on which the Exercise Right has been effectively exercised, or the Exercise Date, as the case may be, on which the Issuer has exercised its Regular Call Right.

Relevant Reference Price means the Reference Price of the Underlying on the respective Calculation Date.

Relevant Reference Price (final) means the Reference Price on the respective Valuation Date.

Reference Price	Initial Ratio*	Initial Barrier*	Initial Strike*	Leverage Factor	Reference Rate	Initial Risk Management Fee*	Initial Hypothetical Redemption Value*	Spread
Closing price	1,8746470920	EUR 14,875869	EUR 15,939	-2	EURIBOR1MD=	4%	EUR 9,96	6,67%

* Values as of 7 November 2023. After this date, the values may be different.

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, if price quotation of the Underlying on the relevant exchange is finally ceased).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, each measure taken by the company that has issued the Underlying or by a third party which, as a result of a change in the legal and financial position, affects the Underlying).

Extraordinary Automatic Exercise: If the Strike is determined with a value of zero (0) and/or the respective Hypothetical Redemption Value (Closing) has been specified for the first time as EUR 0.20 or below, the Securities are automatically exercised and be redeemed at the Differential Amount.

Status of the Securities: The Securities constitute direct, unconditional and unsecured obligations of the Issuer. The Securities rank *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer. Exception: obligations which have a preference or subordination under the law.

Where will the Securities be traded?

No application for the Securities to be admitted to trading on a regulated market has been made. However, application to listing will be made with effect from 7 November 2023 on the following multilateral trading facilities (MTF):

- Munich - gettex (open market) (gettex MTF)

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is a particular risk that the price of the Underlying will rise and that the value of the Securities and the payments will be disproportionately adversely affected. As a result, the Security Holder may suffer a loss of the amount paid to purchase the Securities. Even a total loss is possible. The risk of the occurrence of a Knock-out Event may increase significantly due to the regular

adjustment of the Strike and the Barrier. Upon the occurrence of a Knock-out Event, the term of the Securities ends and the Security Holder suffers a total loss of the amount paid to purchase the Securities. The performance of the Underlying can have a disproportionately adverse effect on the value of the Securities due to the leverage effect typical for the Securities.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Shares as Underlying: A change in the business development of the issuer of the Share can adversely affect the price of the Share for the Security Holder. The price of a Share can fluctuate strongly due to psychological effects on the stock markets. In the event of extraordinary events, the material conditions and risk profile of a Share can change significantly.

Welches sind die zentralen Risiken, die für die Emittentin spezifisch sind?

Risiken im Zusammenhang mit der finanziellen Situation der Emittentin: Das Risiko, dass die HVB Group ihren Zahlungsverpflichtungen nicht zeitgerecht oder in vollem Umfang nachkommen oder sie sich bei Bedarf nicht ausreichend Liquidität beschaffen kann und dass Liquidität nur zu erhöhten Marktzinsen verfügbar ist sowie das Risiko, dass die Bank Vermögenswerte nur mit Abschlägen am Markt veräußern kann, könnten Liquiditätsprobleme für die HVB Group hervorrufen. Dies könnte die Fähigkeit der HVB Group negativ beeinflussen, sich entsprechend ihrer Aktivitäten zu refinanzieren und die Mindestanforderungen bezüglich der Liquiditätsausstattung einzuhalten.

Risiken im Zusammenhang mit der spezifischen Geschäftstätigkeit der Emittentin: Risiken, die sich aus den normalen Geschäftstätigkeiten der HVB Group ergeben, die Kreditrisiken im Kreditgeschäft, Marktrisiko im Handelsgeschäft sowie Risiken umfassen, die sich aus der sonstigen Geschäftstätigkeit ergeben, wie Immobiliengeschäftsaktivitäten der HVB Group, könnten negative Auswirkungen auf die operativen Ergebnisse sowie die Vermögens- und Finanzlage der HVB Group haben.

Allgemeine Risiken im Zusammenhang mit dem Geschäftsbetrieb der Emittentin: Risiken, die durch ungeeignete oder fehlerhafte interne Prozesse, Systeme, menschliche Fehler oder externe Ereignissen hervorgerufen werden, Risiken, die aus nachteiligen Reaktionen von Interessengruppen (Stakeholder) aufgrund deren veränderter Wahrnehmung der Bank resultieren, sowie unerwartete nachteilige Veränderungen der zukünftigen Erträge der Bank sowie Risiken aus Anhäufungen von Risiko- und/oder Ertragspositionen könnten zu finanziellen Verlusten, einer Herabstufung des Ratings der HVB und zu einem Anstieg des Geschäftsrisikos der HVB Group führen.

Rechtliches und regulatorisches Risiko: Veränderungen des regulatorischen und gesetzlichen Umfelds der HVB könnten höhere Kapitalkosten und einen Anstieg der Kosten für die Umsetzung regulatorischer Anforderungen zur Folge haben. In Fällen der Nichteinhaltung von regulatorischen Anforderungen, (Steuer-)Gesetzen, Vorschriften, Rechtsvorschriften, Vereinbarungen, vorgeschriebenen Praktiken und ethischen Standards könnte die öffentliche Wahrnehmung der HVB Group sowie die Ertragslage und ihre finanzielle Situation negativ beeinträchtigt werden.

Strategisches und gesamtwirtschaftliches Risiko: Risiken, die daraus resultieren, dass das Management wesentliche Entwicklungen oder Trends im Umfeld der Bank entweder nicht rechtzeitig erkennt oder falsch einschätzt, und Risiken, die aus negativen wirtschaftlichen Entwicklungen in Deutschland sowie an den internationalen Finanz- und Kapitalmärkten resultieren, könnten sich negativ auf die Vermögens-, Finanz- und Ertragslage der HVB auswirken. Insbesondere die Folgen des russisch-ukrainischen Konflikts, ein starker Anstieg der Energiekosten und der Rohstoffpreise, schwerwiegende Versorgungsgpässe und weitere politische Unsicherheiten wie die Spannungen zwischen den USA und China in Bezug auf den Handel und Taiwan könnten zu einer stärkeren Verlangsamung führen. Zudem könnte es zu Turbulenzen auf den Finanz- und Kapitalmärkten kommen, sofern sich eines der vorgenannten Risiken materialisiert.

Schlusskurs	1,8746470920	EUR 14,875869	EUR 15,939	-2	EURIBOR1MD=	4%	EUR 9,96	6,67%

* Werte zum 7. November 2023. Nach diesem Tag können die tatsächlichen Werte abweichen.

Außerordentliches Kündigungsrecht: Beim Eintritt bestimmter Kündigungsereignisse (zum Beispiel, falls die Kursnotierung des Basiswerts an der maßgeblichen Börse endgültig eingestellt wird) hat die Emittentin das Recht, die Wertpapiere zum angemessenen Marktwert der Wertpapiere außerordentlich zu kündigen.

Anpassungsrecht: Die Berechnungsstelle kann eine Anpassung der Wertpapierbedingungen vornehmen, wenn ein Anpassungsereignis eintritt (zum Beispiel jede Maßnahme, die die Gesellschaft, die den Basiswert ausgegeben hat, oder eine Drittpartei ergreift, welche auf Grund einer Änderung der rechtlichen und wirtschaftlichen Situation den Basiswert beeinträchtigt).

Außerordentliche automatische Ausübung: Wird der Basispreis mit einem Wert von null und/oder der jeweilige Rückzahlungswert (Closing) erstmals mit einem Wert von auf oder unter EUR 0,20 festgestellt, werden die Wertpapiere automatisch ausgeübt und zum Differenzbetrag zurückgezahlt.

Rang der Wertpapiere: Die Wertpapiere sind unmittelbare, unbedingte und unbesicherte Verbindlichkeiten der Emittentin. Die Wertpapiere stehen im gleichen Rang mit allen anderen unbesicherten und nicht-nachrangigen gegenwärtigen und zukünftigen Verbindlichkeiten der Emittentin. Ausnahme: Verbindlichkeiten, die nach dem Gesetz bevorrechtigt oder nachrangig sind.

Wo werden die Wertpapiere gehandelt?

Es wurde keine Zulassung der Wertpapiere zum Handel an einem geregelten Markt beantragt. Allerdings wird die Notierung der Wertpapiere mit Wirkung zum 7. November 2023 an den folgenden multilateralen Handelssystemen (multilateral trading facilities - MTF) beantragt:

- München - gettex (Freiverkehr) (gettex MTF)

Welches sind die zentralen Risiken, die für die Wertpapiere spezifisch sind?

Die nach Einschätzung der Emittentin wesentlichen Risiken, die für die Wertpapiere spezifisch sind, werden im Folgenden beschrieben:

Risiken aufgrund des Rangs und der Eigenschaft der Wertpapiere bei einem Ausfall der Emittentin: Die Wertpapierinhaber tragen das Insolvenzrisiko der Emittentin. Darüber hinaus können die Wertpapierinhaber von Abwicklungsmaßnahmen in Bezug auf die Emittentin betroffen sein, wenn die Emittentin ausfällt oder wenn ein Ausfall wahrscheinlich ist.

Spezifische Risiken, die sich aus dem Zahlungsprofil der Wertpapiere ergeben: Es besteht das zentrale Risiko, dass der Kurs des Basiswerts steigt und der Wertpapierinhaber demzufolge einen erheblichen Verlust seines angelegten Kapitals erleidet. Es ist sogar ein Totalverlust möglich. Das Risiko des Eintritts eines Knock-out Ereignisses kann sich durch die regelmäßige Anpassung des Basispreises und der Barriere deutlich erhöhen. Bei Eintritt eines Knock-out Ereignisses endet die Laufzeit der Wertpapiere und der Wertpapierinhaber erleidet einen Totalverlust des bezahlten Kapitalbetrags. Die Kursentwicklung des Basiswerts kann den Wert der Wertpapiere aufgrund des für die Wertpapiere typischen Hebeleffekts überproportional nachteilig beeinflussen.

Risiken, die sich aus den Bedingungen der Wertpapiere ergeben: Die Wertpapierinhaber tragen ein Verlustrisiko, wenn die Wertpapiere von der Emittentin gekündigt werden. Die Wertpapiere werden dann zu ihrem Marktwert zurückgezahlt. Dieser ist möglicherweise niedriger als der Betrag, den der Wertpapierinhaber erhalten hätte, wenn keine außerordentliche Kündigung der Wertpapiere erfolgt wäre. Darüber hinaus tragen die Wertpapierinhaber ein Wiederanlagerisiko und ein Verlustrisiko, wenn eine Anpassung der Wertpapierbedingungen vorgenommen wird oder wenn eine Marktstörung eintritt.

Risiken betreffend die Anlage, das Halten und die Veräußerung der Wertpapiere: Die Wertpapierinhaber tragen das Risiko, dass der Marktpreis der Wertpapiere während der Laufzeit erheblich schwankt und sie die Wertpapiere nicht zu einer bestimmten Zeit oder zu einem bestimmten Kurs kaufen oder verkaufen können.

Risiken in Verbindung mit Aktien als Basiswert: Eine Änderung in der Geschäftsentwicklung des Emittenten der Aktie kann den Kurs der Aktie für den Wertpapierinhaber nachteilig beeinflussen. Der Kurs einer Aktie kann aufgrund psychologischer Effekte an den Aktienmärkten stark schwanken. Im Fall außerordentlicher Ereignisse können sich die wesentlichen Eigenschaften und das Risikoprofil einer Aktie erheblich ändern.

Quali sono i principali rischi specifici dell'Emittente?

Rischi correlati alla situazione finanziaria dell'Emittente: Rischio che il Gruppo HVB non sia in grado di adempiere tempestivamente o pienamente alle proprie obbligazioni di pagamento o che non sia in grado di ottenere sufficiente liquidità quando richiesto nonché che la liquidità sia disponibile solo ad un tasso di interesse più alto, e rischio che la banca sia soltanto in grado di liquidare attività sul mercato a sconto potrebbe creare problemi di liquidità per il Gruppo HVB e, quindi, potrebbe comportare una limitata possibilità di finanziare le proprie attività e raggiungere i propri livelli minimi di liquidità.

Rischi relativi alle specifiche attività di business dell'Emittente: Rischi derivanti dalle normali attività di business del Gruppo HVB che potrebbero comportare rischio di credito nelle operazioni di *lending*, rischio di mercato nelle attività di negoziazione così come rischi relativi ad altre attività di business quali l'attività immobiliare del Gruppo HVB potrebbero avere un impatto negativo sui risultati operativi, sugli attivi e sulla situazione finanziaria del Gruppo HVB.

Rischi generali relativi alle operazioni commerciali dell'Emittente: Rischi derivanti da inadeguati o non riusciti processi interni, sistemi e persone o da eventi esterni così come rischi causati da reazioni avverse degli investitori a causa della loro percezione alterata della banca, rischi derivanti da inattesi cambiamenti avversi negli utili futuri della banca, nonché i rischi derivanti dalle concentrazioni di posizioni di rischio e/o di ricavo, potrebbero comportare perdite finanziarie, un declassamento del rating di HVB ed un aumento del rischio di impresa del Gruppo HVB.

Rischi legali e regolamentari: Cambiamenti del contesto regolamentare o statutario di HVB potrebbero comportare costi di capitale superiori e un aumento dei costi per l'implementazione dei requisiti regolamentari. L'eventuale non conformità a requisiti regolamentari, leggi (fiscali) regolamenti, previsioni statutarie, contratti, prassi obbligatorie e standard etici, potrebbe avere un impatto negativo sulla percezione pubblica del Gruppo HVB, nonché sui suoi utili e sulla sua situazione finanziaria.

Rischio strategico e macroeconomico: Rischi derivanti dal mancato riconoscimento tempestivo o da una valutazione non corretta di sviluppi o tendenze significative nell'ambiente della banca da parte del management e rischi derivanti da sviluppi economici negativi in Germania e nei mercati internazionali finanziari e dei capitali potrebbero avere effetti negativi su attivi, passività, posizione finanziaria e profitto o perdite del Gruppo HVB. In particolare, le conseguenze del conflitto Russo-Ucraino, un forte aumento dei costi dell'energia e dei prezzi delle materie prime, gravi rallentamenti nell'approvvigionamento e ulteriori incertezze politiche, come le tensioni tra Stati Uniti e Cina riguardo al commercio e a Taiwan, potrebbero portare a un rallentamento più grave. Inoltre, se uno qualunque dei suddetti rischi si materializzasse, potrebbe verificarsi un'instabilità sui mercati finanziari e di capitali.

Sezione 3 – Informazioni fondamentali sui Titoli

Quali sono le principali caratteristiche dei Titoli?

Tipologia di Prodotto, Sottostante e forma dei Titoli

Tipologia di Prodotto: Titoli Short Factor Mini Future (*Short Factor Mini Future Securities*) (Non-Quanto)

Sottostante: Deutsche Bank AG (ISIN: DE0005140008)

I Titoli sono emessi come obbligazioni al portatore ai sensi del § 793 del Codice Civile tedesco (*Bürgerliches Gesetzbuch*). I Titoli saranno rappresentati da una nota globale e sono liberamente trasferibili. Il codice internazionale di identificazione dei titoli (*International Securities Identification Number - ISIN*) dei Titoli è indicato nella Sezione 1.

Emissione, Importo Nominale e Durata

I Titoli saranno emessi il 09/11/2023 in Euro (EUR) (la "**Valuta di Emissione**"), senza importo nominale, pari a 200.000 Certificati. I Titoli hanno durata indefinita. Continuano fino all'esercizio del Diritto di Esercizio da parte del Portatore del Titolo o all'esercizio del Diritto di Riscatto Regolare dell'Emittente da parte dell'Emittente, a meno che si verifichi un Evento di Knock-out. A seguito dell'esercizio di tale diritto, la durata dei Titoli terminerà alla rispettiva Data di Esercizio.

Diritto di Esercizio

Fermo restando il verificarsi un Evento di Knock-out o a meno che i Titoli siano estinti dall'Emittente, il Portatore del Titolo ha il diritto di chiedere all'Emittente il pagamento dell'Importo Differenziale per Titolo (Diritto di Esercizio).

Il Diritto di Esercizio può essere esercitato dal Portatore del Titolo a ciascuna Data di Esercizio.

L'Importo Differenziale sarà calcolato sottraendo il Prezzo di Riferimento Rilevante (finale) dallo Strike. La differenza sarà moltiplicata per il Coefficiente.

L'Importo Differenziale non sarà inferiore a EUR 0,001.

A seguito dell'efficace esercizio del Diritto di Esercizio, l'Importo Differenziale sarà pagato cinque Giorni Lavorativi dopo la rispettiva Data di Valutazione.

Evento di Rettifica Straordinario

A seguito di un Evento di Rettifica Straordinario, lo Strike, la Barriera, il Coefficiente e il Valore di Rimborso Ipotetico subiranno una rettifica straordinaria infragiornaliera.

Si è verificato un Evento di Rettifica Straordinario se, mediante continua osservazione dal 07/11/2023, il prezzo del sottostante è, in qualsiasi momento, pari o superiore alla Barriera.

Knock-out

A seguito di un Evento di Knock-out come conseguenza di un Evento di Rettifica Straordinario, il Diritto di Esercizio decade e verrà pagato l'Importo Minimo per ciascun Titolo.

L'Importo Minimo sarà pagato cinque Giorni Lavorativi dopo il giorno in cui si è verificato l'Evento di Knock-out.

Un Evento di Knock-out si verifica se il Prezzo di Rettifica durante il Periodo di Osservazione rilevante è pari o superiore allo Strike allora attuale. Il Prezzo di Rettifica rappresenta il prezzo più alto del Sottostante durante il Periodo di Osservazione rilevante.

Diritto di Riscatto Regolare dell'Emittente

L'Emittente può estinguere i Titoli a qualsiasi Data di Esercizio per intero ma non in parte e ripagarli all'Importo Differenziale.

Definizioni aggiuntive e termini del prodotto

Giorno di Rettifica indica il 07/11/2023 e ciascun giorno di calendario successivo (ad eccezione del sabato o della domenica).

Data di Esercizio indica l'ultima data di negoziazione di ciascun mese di gennaio, febbraio, marzo, aprile, maggio, giugno, luglio, agosto, settembre, ottobre, novembre e dicembre di ciascun anno.

In ciascun Giorno di Rettifica, la Barriera, il Valore di Rimborso Ipotetico, il Coefficiente e lo Strike saranno rettificati due volte al giorno, all'Apertura delle Negoziazioni e dopo la Chiusura delle Negoziazioni. Il 07/11/2023, la rettifica sarà effettuata solo dopo la Chiusura delle Negoziazioni:

- Il 07/11/2023, lo Strike è pari allo Strike Iniziale. La rettifica viene effettuata sulla base del Prezzo di Riferimento Rilevante e del Fattore di Rettifica della Leva Finanziaria. Inoltre, vengono considerati i costi di finanziamento proporzionati dell'Emittente. I costi di finanziamento sono determinati sulla base di un tasso di interesse di mercato corrente (Tasso di Riferimento) e della Commissione di Gestione del Rischio applicabile. Di conseguenza, lo Strike si avvicina di solito al prezzo attuale del Sottostante, a condizione che il prezzo del Sottostante non diminuisca di conseguenza. Nel caso di pagamenti dei dividendi del sottostante, viene fatta un'ulteriore rettifica.
- Il 07/11/2023 la Barriera è pari alla Barriera Iniziale. La rettifica viene effettuata sulla base dello Strike attuale e dello Spread. Di conseguenza, la Barriera si avvicina di solito al prezzo attuale del Sottostante, a condizione che il prezzo del Sottostante non diminuisca di conseguenza.
- Il 07/11/2023 il Coefficiente è pari al Coefficiente Iniziale. La rettifica viene effettuata sulla base del Valore di Rimborso Ipotetico, del Fattore di Leva Finanziaria e del Prezzo di Riferimento Rilevante. Nel caso di pagamenti dei dividendi del sottostante, viene fatta un'ulteriore rettifica.
- Il 07/11/2023 il Valore di Rimborso Ipotetico è pari al Valore di Rimborso Ipotetico Iniziale. La rettifica viene effettuata sulla base del Prezzo di Riferimento Rilevante, dello Strike e del Coefficiente.

Il Periodo di Osservazione è un periodo di cinque minuti successivo al verificarsi dell'Evento di Rettifica Straordinario.

La Data di Calcolo indica ogni giorno in cui il Sottostante è negoziato sul Mercato Rilevante.

Data di Valutazione indica la Data di Esercizio in cui il Diritto di Esercizio è stato efficacemente esercitato o la Data di Esercizio, a seconda dei casi, in cui l'Emittente ha esercitato il proprio Diritto di Riscatto Regolare.

Prezzo di Riferimento Rilevante indica il Prezzo di Riferimento del Sottostante alla rispettiva Data di Calcolo.

Prezzo di Riferimento Rilevante (finale) indica il Prezzo di Riferimento alla rispettiva Data di Valutazione.

Prezzo di Riferimento	Multiplo Iniziale*	Barriera Iniziale*	Strike Iniziale*	Fattore die Leva Fianziaria	Tasso di Riferimento	Commissione di Gestione del Rischio Iniziale*	Valore di Rimborso Ipotetico Iniziale*	Spread
Prezzo di chiusura	1,8746470920	EUR 14,875869	EUR 15,939	-2	EURIBOR1MD=	4%	EUR 9,96	6,67%

* Valori al 07/11/2023. Dopo tale data, i valori potrebbero essere diversi.

Diritto di riscatto straordinario: L'Emittente ha il diritto di estinguere in via straordinaria i Titoli ad un valore equo di mercato al verificarsi di certi Eventi di Call (*Call Events*) (ad esempio, se la quotazione del prezzo del Sottostante sul relativo mercato è definitivamente cessata).

Diritto di rettifica: I Termini e Condizioni (*Terms and Conditions*) dei Titoli possono essere rettificati dall'Agente di Calcolo (*Calculation Agent*) nel caso in cui si verifichi un Evento di Rettifica (*Adjustment Event*) (ad esempio ciascuna misura adottata dalla società che ha emesso il Sottostante o da una terza parte che, come conseguenza di un cambiamento nella posizione giuridica e finanziaria, influenza il Sottostante).

Esercizio Automatico Straordinario: Nel caso in cui lo Strike sia determinato con un valore pari a zero (0) e/o il rispettivo Valore di Rimborso Ipotetico (Chiusura) sia specificato per la prima volta come pari o inferiore a EUR 0,2, i Titoli saranno automaticamente esercitati e rimborsati all'Importo Differenziale.

Stato dei Titoli: I Titoli costituiscono obbligazioni dirette, incondizionate e non garantite dell'Emittente. I Titoli sono parimenti ordinati (*pari passu*) con tutte le altre obbligazioni non garantite e non subordinate presenti e future dell'Emittente. Eccezione: obbligazioni che hanno un privilegio o una subordinazione ai sensi di legge.

Dove saranno negoziati i Titoli?

Non è stata presentata domanda per l'ammissione alla negoziazione dei Titoli su un mercato regolamentato. Peraltro, sarà presentata domanda per l'ammissione dei Titoli alla quotazione con efficacia a partire dal 07/11/2023 sui seguenti sistemi multilaterali di negoziazione (MTF):

- Munich - gettex (open market) (gettex MTF)

Quali sono i principali rischi specifici dei Titoli?

I fattori di rischio specifici relativi ai Titoli, che nell'opinione dell'Emittente sono significativi, sono descritti di seguito:

Rischio connesso al collocamento e caratteristiche dei Titoli in caso di fallimento dell'Emittente: I Portatori dei Titoli sono esposti al rischio di fallimento dell'Emittente. In aggiunta, i Portatori dei Titoli possono essere soggetti a misure di risoluzione in relazione all'Emittente se l'Emittente sta fallendo od è probabile che fallisca.

Rischi specifici connessi al profilo di pagamento dei Titoli: Vi è un rischio particolare che il prezzo del Sottostante possa aumentare e che il valore dei Titoli e i pagamenti ne risentano in modo sproporzionato. Di conseguenza, il Portatore del Titolo potrebbe incorrere in una perdita dell'importo pagato per acquistare i Titoli. Anche una perdita totale è possibile. Il rischio del verificarsi di un Evento di Knock-out potrebbe aumentare in modo significativo a causa della regolare rettifica dello Strike e della Barriera. Al seguito del verificarsi di un Evento di Knock-out, la durata dei Titoli termina e il Portatore del Titolo subisce una perdita totale dell'importo pagato per acquistare i Titoli. La performance del Sottostante può avere un effetto sproporzionatamente sfavorevole sul valore dei Titoli, a causa dell'effetto di leva tipico dei Titoli.

Rischi derivanti dai Termini e Condizioni dei Titoli: I Portatori dei Titoli sono esposti ad un rischio di perdita nel caso in cui i Titoli siano estinti dall'Emittente. I Titoli saranno poi rimborsati al valore equo di mercato dei Titoli. Questo può essere inferiore rispetto all'importo che il Portatore del Titolo avrebbe ricevuto se non ci fosse stato un riscatto straordinario dei Titoli. In aggiunta, i Portatori del Titolo sono esposti al rischio di reinvestimento. Inoltre, i Portatori dei Titoli sono esposti ad un rischio di perdita se viene effettuata una rettifica dei Termini e Condizioni o se si verifica una turbativa del mercato.

Rischi connessi all'investimento, alla detenzione e vendita dei Titoli: I Portatori dei Titoli sono esposti al rischio che il prezzo di mercato dei Titoli può essere soggetto a forti variazioni nel corso della durata dei Titoli e che il Portatore del Titolo non sia in grado di acquistare o vendere i Titoli in un momento specifico o ad un prezzo specifico.

Rischi connessi ad Azioni come Sottostante: Un cambiamento nello sviluppo del business dell'emittente dell'Azione può influire negativamente sul prezzo dell'Azione per il Portatore del Titolo. Il prezzo di un'Azione può fluttuare fortemente a causa di effetti psicologici sui mercati azionari. In caso di eventi straordinari, le condizioni sostanziali e il profilo di rischio di un'Azione possono cambiare significativamente.

Risques liés aux activités spécifiques de l'Emetteur: Risques découlant du cours normal des activités commerciales du Groupe HVB, ce qui comprend le risque de crédit dans le cadre de ses activités de prêt, le risque de marché lié aux activités de négociation ainsi que les risques d'autres secteurs d'activité tels que les activités immobilières du Groupe HVB pourraient avoir un effet défavorable sur les résultats d'exploitation (*operating results*), les actifs et la situation financière du Groupe HVB.

Risques généraux liés aux activités commerciales de l'Emetteur: Risques de pertes liés à des procédures internes, des systèmes et des personnes inadéquats ou défaillants ou à des événements externes ainsi que des risques causés par des réactions défavorables des parties prenantes dues à leur perception altérée de la banque, les risques de changements négatifs imprévus dans les revenus futurs de la banque de même que les risques émanant des concentrations du risque et/ou des revenus (*earning positions*), pourraient entraîner des pertes financières, une dégradation de la notation de HVB et une augmentation du risque opérationnel (*business risk*) du Groupe HVB.

Risques juridiques et réglementaires: Les changements affectant le cadre réglementaire et statutaire de HVB pourraient entraîner une hausse des coûts du capital et une augmentation des coûts pour la mise en œuvre des exigences réglementaires. En cas de non-respect des exigences réglementaires, des lois (fiscales), des règlements, des dispositions légales, des accords, des pratiques obligatoires et des normes éthiques, la perception du Groupe HVB par le public ainsi que ses revenus et sa situation financière pourraient être négativement affectées.

Risques stratégiques et macroéconomiques: Risques résultant de la reconnaissance tardive ou de l'évaluation incorrecte de la part de la direction des évolutions ou des tendances significatives de l'environnement au sein duquel évolue la banque et les risques liés à l'évolution de la situation économique en Allemagne et à l'évolution des marchés financiers et de capitaux internationaux pourraient avoir un effet négatif sur les actifs, passifs, la position financière et le résultat du Groupe HVB. En particulier, les conséquences du conflit russo-ukrainien, une forte hausse des coûts de l'énergie et des prix des matières premières, de graves goulots d'étranglement au niveau de l'approvisionnement et de nouvelles incertitudes politiques telles que les tensions entre les États-Unis et la Chine concernant les échanges commerciaux et Taïwan pourraient entraîner un ralentissement plus important de l'économie. 3. Section – Informations clés sur les Titres

Quels sont les principales caractéristiques des Titres?

Type de Produit, Sous-Jacent et nature des Titres

Type de Produit: Titres Short Factor Mini Future (*Short Factor Mini Future Securities*) (Non-Quanto)

Sous-Jacent: Deutsche Bank AG (ISIN: DE0005140008)

Les Titres sont des titres de créance au porteur conformément à la Section 793 du Code Civil allemand (*Bürgerliches Gesetzbuch*). Les Titres seront représentés par un certificat global et peuvent être cédés librement. Le code ISIN (*International Securities Identification Number*) des Titres est indiqué à la Section 1.

Emission, Valeur Nominale et Maturité

Les Titres seront émis le 09/11/2023 et libellés en euros (EUR) (la "**Devise Prévüe**") sans valeur nominale, avec un nombre de 200.000 Certificats. Les Titres sont à durée indéterminée. Ils existent jusqu'à l'exercice du Droit d'Exercice par le Porteur des Titres ou l'exercice de Droit d'Achat Ordinaire de l'Emetteur par l'Emetteur, à moins qu'un Evénement Knock-out se produise. En cas d'exercice de l'une de ces options, l'échéance des Titres se terminera à la Date d'Exercice correspondante.

Droit d'Exercice

Sous réserve de la survenance d'un Evénement Knock-out et à moins que les Titres n'aient été résiliés par l'Emetteur, le Porteur de Titres a le droit de demander à l'Emetteur le paiement du Montant Différentiel par Titre (Droit d'Exercice).

Le Droit d'Exercice peut être exercé par le Porteur de Titres à chaque Date d'Exercice.

Le Montant Différentiel sera calculé en soustrayant le Prix de Référence Concerné (final) du Strike. La différence sera multipliée par le Ratio.

Le Montant Différentiel ne sera pas inférieur à EUR 0,001.

Dès l'exercice effectif du Droit d'Exercice, le Montant Différentiel sera payé cinq Jours de Banque après la Date de Constatation correspondante.

Cas d'Ajustement Extraordinaire

En cas de survenance d'un Cas d'Ajustement Extraordinaire, le Strike, la Barrière, le Ratio et la Valeur de Remboursement Hypothétique seront extraordinairement ajustés intraday.

Un Cas d'Ajustement Extraordinaire s'est produit si, avec une observation continue à partir du 07/11/2023, le prix du Sous-Jacent à tout moment est égal ou supérieur à la Barrière.

Knock-out

En cas de survenance d'un Evénement Knock-out à la suite d'un Cas d'Ajustement Extraordinaire, le Droit d'Exercice devient caduc et le Montant Minimum sera payé pour chaque Titre.

Le Montant Minimum sera payé cinq Jours Bancaires après le jour où l'Evénement Knock-out s'est produit.

Un Evénement Knock-out se produit si le Prix d'Ajustement durant la Période d'Observation concernée est égal ou supérieur au Strike alors en vigueur. Le Prix d'Ajustement est le prix le plus élevé du Sous-Jacent durant la Période d'Observation concernée.

Droit d'Achat Ordinaire

L'Emetteur peut résilier les Titres à toute Date d'Exercice en totalité mais non en partie et les rembourser au Montant Différentiel.

Définitions supplémentaires et modalités du produit

Jour d'Ajustement signifie le 07/11/2023 et chaque jour calendaire suivant (autre qu'un samedi ou un dimanche).

Date d'Exercice signifie le dernier jour de négociation de chacun des mois de janvier, février, mars, avril, mai, juin, juillet, août, septembre, octobre, novembre et décembre de chaque année.

Lors de chaque Jour d'Ajustement, la Barrière, la Valeur de Remboursement Hypothétique, le Ratio et le Strike seront ajustés deux fois par jour, à l'Ouverture de la Négociation et après la Clôture de la Négociation. Le 07/11/2023, l'ajustement ne sera effectué qu'après la Clôture de la Négociation:

- Le 07/11/2023, le Strike est égal au Strike Initial. L'ajustement est effectué sur la base du Prix de Référence Concerné et du Facteur d'Ajustement de l'Effet de Levier. En outre, les coûts de financement proportionnels de l'Emetteur sont pris en compte. Les coûts de financement sont déterminés sur la base d'un taux d'intérêt en vigueur du marché (Taux de Référence) et des Frais de Gestion des Risques applicables. Par conséquent, le Strike se rapproche généralement du prix du Sous-Jacent en vigueur, à condition que le prix du Sous-Jacent ne baisse pas en conséquence. En cas de paiement de dividendes du sous-jacent, un ajustement supplémentaire est effectué.
- Le 07/11/2023, la Barrière est égale à la Barrière Initiale. L'ajustement est effectué sur la base du Strike et du Spread en vigueur. Par conséquent, la Barrière se rapproche généralement du prix en vigueur du Sous-Jacent, à condition que le prix du Sous-Jacent ne baisse pas en conséquence.
- Le 07/11/2023, le Ratio est égal au Ratio Initial. L'ajustement est effectué sur la base de la Valeur de Remboursement Hypothétique, du Facteur de l'Effet de Levier et du Prix de Référence Concerné. En cas de paiement de dividendes du sous-jacent, un ajustement supplémentaire est effectué.
- Le 07/11/2023, la Valeur de Remboursement Hypothétique est égale à la Valeur de Remboursement Hypothétique Initiale. L'ajustement est effectué sur la base du Prix de Référence Concerné, du Strike et du Ratio.

Période d'Observation est une période de cinq minutes suivant la survenance du Cas d'Ajustement Extraordinaire.

Date de Calcul signifie chaque jour où le Sous-Jacent est négocié à la Bourse Concernée.

Date de Constatation signifie la Date d'Exercice à laquelle le Droit d'Exercice a été valablement exercé, ou la Date d'Exercice, selon le cas, à laquelle l'Emetteur a exercé son Droit d'Achat Ordinaire.

Prix de Référence Concerné signifie le Prix de Référence du Sous-Jacent à la Date de Calcul correspondante.

Prix de Référence Concerné (final) signifie le Prix de Référence à la Date de Valorisation correspondante.

Prix de Référence	Ratio Initial*	Barrière Initiale*	Strike Initial*	Facteur de l'Effet de Levier	Taux de Référence	Frais de Gestion des Risques Initial*	Valeur de Remboursement Hypothétique Initiale*	Spread
cours de clôture	1,8746470920	EUR 14,875869	EUR 15,939	-2	EURIBOR1MD=	4%	EUR 9,96	6,67%

* Valeurs au 07/11/2023. Après cette date les valeurs peuvent être différentes.

Droits de résiliation extraordinaire: L'Emetteur a le droit de résilier de façon extraordinaire les Titres à leur juste valeur de marché à la survenance de certains Cas de Rappel (*Call Event*) (par exemple, si la cotation du prix du Sous-Jacent sur la bourse concernée cesse définitivement).

Droit d'ajustement: Les Modalités (*Terms and Conditions*) des Titres peuvent être ajustées par l'Agent de Calcul (*Calculation Agent*) si un Cas d'Ajustement (*Adjustment Event*) survient (par exemple, chaque mesure prise par la société qui a émis le Sous-Jacent ou par un tiers qui, en raison d'un changement de la situation juridique et financière, affecte le Sous-Jacent).

Exercice Automatique Extraordinaire: Si le Strike est déterminé avec une valeur de zéro (0) et/ou la Valeur de Remboursement Hypothétique (*Hypothetical Redemption Value*) correspondante (Clôture) a été spécifiée pour la première fois comme étant égale ou inférieure à EUR 0,2, les Titres sont automatiquement exercés et remboursés au Montant Différentiel (*Differential Amount*).

Rang des Titres: Les Titres constituent des obligations directes, inconditionnelles et non garanties de l'Émetteur. Les Titres ont un rang égal (*pari passu*) à celui de toutes les autres obligations non garanties et non subordonnées, présentes et futures, de l'Emetteur. Exception : les obligations qui ont un privilège ou une subordination en vertu de la loi.

Où les Titres seront-ils négociés?

Aucune demande d'admission des Titres à la négociation sur un marché réglementé n'a été effectuée. Cependant, une demande d'admission à la cotation prenant effet au 07/11/2023 sera effectuée sur les systèmes multilatéraux de négociations (SMN) suivants:

- Munich - gettex (open market) (SMN gettex)

Quels sont les principaux risques spécifiques aux Titres?

Les facteurs de risque spécifiques aux Titres, qui de l'avis de l'Emetteur sont significatifs, sont décrits ci-dessous:

Risque lié au rang et aux caractéristiques des Titres en cas de défaillance de l'Emetteur: Les Porteurs de Titres supportent le risque d'insolvabilité de l'Emetteur. De plus, les Porteurs de Titres peuvent faire l'objet de mesures de résolution à l'égard de l'Emetteur si ce dernier manque ou est susceptible de manquer à ses obligations.

Risques spécifiques liés au profil de paiement des Titres: Il existe un risque particulier que le prix du Sous-Jacent augmente et que la valeur des Titres et les paiements soient affectés négativement et de manière disproportionnée. Par conséquent, le Porteur de Titres peut subir une perte du montant payé pour l'achat des Titres. Une perte totale est même possible. Le risque de survenance d'un Evénement Knock-out peut augmenter de manière significative en raison de l'ajustement régulier du Strike et de la Barrière. En cas de survenance d'un Evénement Knock-out, la durée des Titres prend fin et le Porteur de Titres subit une perte totale du montant payé pour l'achat des Titres. La performance du Sous-Jacent peut avoir un effet négatif disproportionné sur la valeur des Titres en raison de l'effet de levier typique des Titres.

Risques découlant des Modalités des Titres: Les Porteurs de Titres courent un risque de perte si les Titres sont résiliés par l'Emetteur. Les Titres feront l'objet d'un remboursement à leur juste valeur de marché. Ce montant peut être inférieur au montant que le Porteur de Titres aurait reçu s'il n'y avait pas eu de résiliation extraordinaire des Titres. En outre, les Porteurs de Titres supportent un risque de réinvestissement. De plus, les Porteurs de Titres supportent un risque de perte en cas d'ajustement des Modalités ou en cas de perturbation du marché.

Risques liés à l'achat, la détention ou la vente des Titres: Les Porteurs de Titres supportent le risque que le prix de marché des Titres soit soumis à de fortes fluctuations pendant la durée de vie des Titres et que le Porteur de Titres ne soit pas en mesure d'acheter ou de vendre les Titres à un moment précis ou à un prix déterminé.

Risques liés au Sous-Jacent lorsqu'il s'agit d'une Action: Un changement dans le développement commercial de l'émetteur d'une Action peut affecter négativement le prix de l'Action pour le Porteur de Titres. Le prix d'une Action peut fluctuer fortement en raison des effets psychologiques sur les marchés actions. En cas d'événements extraordinaires, les conditions matérielles et le profil de risque d'une Action peuvent changer significativement.
