An Exercise Notice on fewer Securities than the Minimum Exercise Amount is invalid and has no effect.

Securities received by the Issuer and for which no effective Exercise Notice exists or the Exercise Right deems to be not effectively exercised, will be immediately retransferred by the Issuer without undue delay at the expense of the relevant Security Holder.

Subject to the aforementioned provisions, the transmission of an Exercise Notice constitutes an irrevocable declaration of intent of the relevant Security Holder to exercise the respective Securities.

- (4) *Suspension of the Exercise Right:* The Exercise Right cannot be exercised:
- (a) during the period between the day, on which the company specified in § 1 of the Product and Underlying Data (the "**Company**") publishes an offer to its shareholders to acquire (a) new shares or (b) warrants or other securities with conversion or option rights on shares of the Company, and the first day after the expiration of the period determined for the exercise of the purchase right;
 - (b) prior and after the shareholders' meeting of the Company, in the period from (and including) the last depositary day for shares and to (and including) the third Banking Day after the shareholders' meeting.

If the exercise of the Exercise Right by the Security Holder is suspended on an Exercise Day according to the previous sentence, the Exercise Right will however be automatically exercised on the Final Valuation Date pursuant to paragraph (1) of this § 3.

- (5) *Payment:* The Differential Amount will be paid five Banking Days after the respective Valuation Date, but not later than on the Final Payment Date, pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Differential Amount

- (1) *Differential Amount:* The Differential Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

$$\text{Differential Amount} = (\text{Relevant Reference Price} - \text{Strike}) \times \text{Ratio}$$

However, the Differential Amount is not lower than the Minimum Amount.

- (2) When calculating or, respectively, determining the Differential Amount, no fees, commissions or other costs charged by the Issuer or a third party authorised by the Issuer, will be taken into account.

§ 5

Issuer's Extraordinary Call Right

Issuer's Extraordinary Call Right: Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice. The application of §§ 313, 314 BGB remains reserved.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the tenth Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) under then prevailing circumstances.

The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under the Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards. However, at least the Minimum Amount shall be paid.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on a Valuation Date, the respective Valuation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Valuation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine in its reasonable discretion (§ 315 et seq. BGB) the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on the 9th Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Underlying Linked Derivatives expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Derivatives is the relevant Valuation Date.

§ 8

Adjustments, Type of Adjustment, Replacement Specification, Notifications, Authorisation with respect to the Central Register, Legal Provisions

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 in its reasonable discretion (§ 315 et seq. BGB), taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

Within the context of an Adjustment the Calculation Agent proceeds as follows:

- (a) *Adjustment in accordance with the Determining Futures Exchange:* In general, the Calculation Agent will undertake the Adjustment in terms of content and timing in a way that to the greatest extent matches the designated Adjustment by the Determining Futures Exchange regarding the Underlying Linked Derivatives. The Calculation Agent is, however, also authorised to make an Adjustment if there is no Adjustment made to the Underlying Linked Derivatives by the Determining Future Exchange. In this case the Calculation Agent will make the Adjustment, if any, in accordance with the rulebook of the Determining Futures Exchange with respect to the Underlying Linked Derivatives.
 - (b) *Deviating Adjustments:* In particular in the following cases the Calculation Agent is authorised to make Adjustments deviating from the Adjustments made by the Determining Futures Exchange in order to take into account the Adjustment Goal in an appropriate manner.
 - (i) The Adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is impossible for the Issuer or the Calculation Agent or technically not feasible within reasonable economic efforts; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB);
 - (ii) The Adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is unreasonable for Security Holders, the Calculation Agent or the Issuer (e.g. because the Issuer would have to breach internal trading restrictions in order to hedge its payment obligations under the Securities); whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB); or
 - (iii) The Adjustment envisaged by the Determining Futures Exchange is not suitable to meet the Adjustment Goal; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).
 - (c) *Reversal of Adjustment:* If an Adjustment Event that has occurred subsequently ceases to exist (for example, if the effectiveness of a merger subsequently ceases to exist due to the agreement on the merger or a sovereign prohibition or lack of approval), the Calculation Agent shall be entitled to reverse a previously made Adjustment pursuant to this § 8 if this corresponds to the Adjustment Goal.
- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measures in accordance with paragraph (1) above:
- (a) *Adjustment of Adjustable Product Data:* The Calculation Agent may redefine the Adjustable Product Data based on an adjustment factor (e.g. in case of a capital increase against cash contribution, issue of securities with options or conversion rights in shares, a capital increase from company funds, a distribution of special dividends or other measures undertaken by the company, that issued the

Underlying or a third party, that impacts the computed value of the Underlying not only in an insignificant way, based on a change of a legal or economic situation, in particular a change of the fixed assets or equity of the company).

- (b) *Replacement of the Underlying:* In case of a take-over or a merger or similar measure with respect to the Underlying the Calculation Agent can replace the Underlying with the share of the successor of the issuer of the original Underlying or with another share of – inter alia – comparable liquidity and industry affiliation as the original Underlying (the "**Replacement Underlying**"). Furthermore, until completion of the take-over or merger (excluding), the Calculation Agent may determine that either the shares submitted for sale or submitted for exchange are to be the Replacement Underlying.

In case of a split or a similar measure with respect to the Underlying the Calculation Agent may determine (i) a basket of shares and/or securities or (ii) a basket of shares and/or securities and a cash component to be the Replacement Underlying. The Calculation Agent may exclusively select, in deviation from the Adjustment made by the Determining Futures Exchange, the share with the highest market capitalisation or another share from the basket of shares determined by the Determining Futures Exchange with – inter alia – comparable liquidity and industry affiliation as the original Underlying to be the Replacement Underlying. In this case the Calculation Agent will, if necessary, determine an adjustment factor by itself to meet the Adjustment Goal and will undertake an Adjustment according to paragraph 2 (a) above.

If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (4) below), every reference to Underlying in the Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

- (3) *Replacement Specification:* If a price of the Underlying published by the Relevant Exchange and required pursuant to the Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.
- (4) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Security Holders according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

Authorisation with respect to the Central Register: Further, the Issuer shall be deemed to be authorised vis-à-vis the Registrar within the meaning of §§ 5 paragraph 2 no. 3, 14 paragraph 1 no. 2 lit. c) eWpG to issue instructions, in order to authorise the necessary amendments to the deposited Terms and Conditions and to the registration particulars

set-out in § 13 paragraph 1 no. 1 and 4 eWpG.

- (5) *Legal Provisions:* The application of §§ 313, 314 BGB remains reserved.

What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, people and systems or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the geopolitical tensions, rising protectionism in the form of higher tariffs, less dynamic growth in China and a slower than expected recovery in the German real estate market can be a major downside risks to the German economy. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Call Warrants with American exercise (Non-Quanto)

Underlying: Intesa Sanpaolo S.p.A. (ISIN: IT0000072618)

The Securities will be issued as electronic securities in the form of central register securities (*Zentralregisterwertpapiere*) with collective safe custody entry (*Sammeleintragung*) and are freely transferable. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Issuance and Term

The Securities will be issued on 23 December 2025 in Euro (EUR) (the "**Specified Currency**"), as 5,000,000 Warrants. Unless already effectively exercised by the Security Holder, the Securities will be redeemed on 26 June 2026 (the "**Final Payment Date**").

Exercise Right

The Security Holder has the right to demand of the Issuer the payment of the Differential Amount per Security (Exercise Right).

The Exercise Right may be exercised by the Security Holder on each trading day during the Exercise Period.

The Exercise Right will, to the extent that it has not already been effectively exercised by the Security Holder, be automatically exercised on 19 June 2026 (the "**Final Valuation Date**").

The Differential Amount will be calculated by subtracting the Strike from the Relevant Reference Price. The difference will be multiplied by the Ratio.

The Differential Amount will not be lower than EUR 0.001.

Upon the effective exercise of the Exercise Right, the Differential Amount will be paid five Banking Days after the respective Valuation Date, but not later than on the Final Payment Date.

Additional definitions and product terms

Valuation Date means the day at which the Exercise Right has been effectively exercised, however, not later than on the Final Valuation Date.

Relevant Reference Price means the Reference Price of the Underlying on the respective Valuation Date.

Reference Price	Ratio	Strike	Exercise Period
Prezzo di Riferimento	1	EUR 6.75	19 Dec 2025 - 19 Jun 2026

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, if price quotation of the Underlying on the relevant exchange is finally ceased).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, each measure taken by the company that has issued the Underlying or by a third party which, as a result of a change in the legal and financial position, affects the Underlying).

Status of the Securities: The Securities constitute direct, unconditional and unsecured obligations of the Issuer. The Securities rank *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer. Exception: obligations which have a preference or subordination under the law.

Where will the Securities be traded?

No application for the Securities to be admitted to trading on a regulated market has been made. However, application to listing will be made with effect from 19 December 2025 on the following multilateral trading facilities (MTF):

- Munich - gettex (open market) (gettex MTF)

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is a particular risk that the price of the Underlying will fall and that the value of the Securities and the payments will be disproportionately adversely affected. As a result, the Security Holder may suffer a loss of the amount paid to purchase the Securities. Even a total loss is possible. The performance of the Underlying can have a disproportionately adverse effect on the value of the Securities due to the leverage effect typical for the Securities.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Shares as Underlying: The price of a Share can fall sharply or it can become worthless due to the insolvency of the issuer of the Share. A change in the business development of the issuer of the Share can adversely affect the price of the Share for the Security Holder. The price of a Share can fluctuate strongly due to psychological effects on the stock markets. In the event of extraordinary events, the material conditions and risk profile of a Share can change significantly.

Welches sind die zentralen Risiken, die für die Emittentin spezifisch sind?

Risiken im Zusammenhang mit der finanziellen Situation der Emittentin: Das Risiko, dass die HVB Group ihren Zahlungsverpflichtungen nicht zeitgerecht oder in vollem Umfang nachkommen oder sie sich bei Bedarf nicht ausreichend Liquidität beschaffen kann und dass Liquidität nur zu erhöhten Marktzinsen verfügbar ist sowie das Risiko, dass die Bank Vermögenswerte nur mit Abschlägen am Markt veräußern kann, könnten Liquiditätsprobleme für die HVB Group hervorrufen. Dies könnte die Fähigkeit der HVB Group negativ beeinflussen, sich entsprechend ihrer Aktivitäten zu refinanzieren und die Mindestanforderungen bezüglich der Liquiditätsausstattung einzuhalten.

Risiken im Zusammenhang mit der spezifischen Geschäftstätigkeit der Emittentin: Risiken, die sich aus den normalen Geschäftstätigkeiten der HVB Group ergeben, die Kreditrisiken im Kreditgeschäft, Marktrisiko im Handelsgeschäft sowie Risiken umfassen, die sich aus der sonstigen Geschäftstätigkeit ergeben, wie Immobiliengeschäftsaktivitäten der HVB Group, könnten negative Auswirkungen auf die operativen Ergebnisse sowie die Vermögens- und Finanzlage der HVB Group haben.

Allgemeine Risiken im Zusammenhang mit dem Geschäftsbetrieb der Emittentin: Risiken, die durch ungeeignete oder fehlerhafte interne Prozesse, menschliche Fehler und Systeme oder externe Ereignissen hervorgerufen werden, Risiken, die aus nachteiligen Reaktionen von Interessengruppen (Stakeholder) aufgrund deren veränderter Wahrnehmung der Bank resultieren, sowie unerwartete nachteilige Veränderungen der zukünftigen Erträge der Bank sowie Risiken aus Anhäufungen von Risiko- und/oder Ertragspositionen könnten zu finanziellen Verlusten, einer Herabstufung des Ratings der HVB und zu einem Anstieg des Geschäftsrisikos der HVB Group führen.

Rechtliches und regulatorisches Risiko: Veränderungen des regulatorischen und gesetzlichen Umfelds der HVB könnten höhere Kapitalkosten und einen Anstieg der Kosten für die Umsetzung regulatorischer Anforderungen zur Folge haben. In Fällen der Nichteinhaltung von regulatorischen Anforderungen, (Steuer-)Gesetzen, Vorschriften, Rechtsvorschriften, Vereinbarungen, vorgeschriebenen Praktiken und ethischen Standards könnte die öffentliche Wahrnehmung der HVB Group sowie die Ertragslage und ihre finanzielle Situation negativ beeinträchtigt werden.

Strategisches und gesamtwirtschaftliches Risiko: Risiken, die daraus resultieren, dass das Management wesentliche Entwicklungen oder Trends im Umfeld der Bank entweder nicht rechtzeitig erkennt oder falsch einschätzt, und Risiken, die aus negativen wirtschaftlichen Entwicklungen in Deutschland sowie an den internationalen Finanz- und Kapitalmärkten resultieren, könnten sich negativ auf die Vermögens-, Finanz- und Ertragslage der HVB auswirken. Insbesondere die Folgen von geopolitischen Spannungen, zunehmender Protektionismus, in Form von höheren Zöllen, weniger dynamisches Wachstum in China und eine langsamere als erwartete Erholung des deutschen Immobilienmarktes könnten zu einem großen Abwärtsrisiko in der deutschen Wirtschaft führen. Zudem könnte es zu Turbulenzen auf den Finanz- und Kapitalmärkten kommen, sofern sich eines der vorgenannten Risiken materialisiert.

3. Abschnitt - Basisinformationen über die Wertpapiere

Welches sind die wichtigsten Merkmale der Wertpapiere?

Produkttyp, Basiswert und Form der Wertpapiere

Produkttyp: Call Optionsscheine mit amerikanischer Ausübung (*Call Warrants with American exercise*) (Non-Quanto)

Basiswert: Intesa Sanpaolo S.p.A. (ISIN: IT0000072618)

Die Wertpapiere sind Inhaberschuldverschreibungen nach deutschem Recht im Sinne von § 793 BGB. Die Wertpapiere werden als elektronische Wertpapiere in der Form von Zentralregisterwertpapieren in Sammeleintragung begeben und sind wertpapierrechtlich frei übertragbar. Die Internationale Wertpapierkennnummer (ISIN) ist im 1. Abschnitt angegeben.

Emission und Laufzeit

Die Wertpapiere werden am 23. Dezember 2025 in Euro (EUR) (die "**Festgelegte Währung**") als 5.000.000 Optionsscheine begeben. Sofern die Wertpapiere vom Wertpapierinhaber nicht zuvor wirksam ausgeübt wurden, werden die Wertpapiere am 26. Juni 2026 (der "**Finale Zahltag**") eingelöst.

Ausübungsrecht

Der Wertpapierinhaber hat das Recht, von der Emittentin je Wertpapier die Zahlung des Differenzbetrags zu verlangen (Ausübungsrecht).

Das Ausübungsrecht kann vom Wertpapierinhaber an jedem Handelstag der Wertpapiere während der Ausübungsfrist ausgeübt werden.

Das Ausübungsrecht wird, soweit es nicht bereits vom Wertpapierinhaber wirksam ausgeübt worden ist, am 19. Juni 2026 (der "**Finale Bewertungstag**") automatisch ausgeübt.

Der Differenzbetrag wird berechnet, indem der Basispreis vom Maßgeblichen Referenzpreis abgezogen wird. Die Differenz wird mit dem Bezugsverhältnis multipliziert.

Der Differenzbetrag ist in keinem Fall kleiner als EUR 0,001.

In Folge einer wirksamen Ausübung des Ausübungsrechts erfolgt die Zahlung des Differenzbetrags fünf Bankgeschäftstage nach dem entsprechenden Bewertungstag, spätestens jedoch am Finalen Zahltag.

Zentrale Definitionen und Produktdaten

Bewertungstag bezeichnet den Tag, an dem das Ausübungsrecht wirksam ausgeübt worden ist, spätestens jedoch den Finalen Bewertungstag.

Maßgeblicher Referenzpreis bezeichnet den Referenzpreis des Basiswerts am entsprechenden Bewertungstag.

Referenzpreis	Bezugsverhältnis	Basispreis	Ausübungsfrist
Prezzo di Riferimento	1	EUR 6,75	19. Dezember 2025 - 19. Juni 2026

Außerordentliches Kündigungsrecht: Beim Eintritt bestimmter Kündigungsereignisse (zum Beispiel, falls die Kursnotierung des Basiswerts an der maßgeblichen Börse endgültig eingestellt wird) hat die Emittentin das Recht, die Wertpapiere zum angemessenen Marktwert der Wertpapiere außerordentlich zu kündigen.

Anpassungsrecht: Die Berechnungsstelle kann eine Anpassung der Wertpapierbedingungen vornehmen, wenn ein Anpassungsereignis eintritt (zum Beispiel jede Maßnahme, die die Gesellschaft, die den Basiswert ausgegeben hat, oder eine Drittpartei ergreift, welche auf Grund einer Änderung der rechtlichen und wirtschaftlichen Situation den Basiswert beeinträchtigt).

Rang der Wertpapiere: Die Wertpapiere sind unmittelbare, unbedingte und unbesicherte Verbindlichkeiten der Emittentin. Die Wertpapiere stehen im gleichen Rang mit allen anderen unbesicherten und nicht-nachrangigen gegenwärtigen und zukünftigen Verbindlichkeiten der Emittentin. Ausnahme: Verbindlichkeiten, die nach dem Gesetz bevorzugt oder nachrangig sind.

Wo werden die Wertpapiere gehandelt?

Es wurde keine Zulassung der Wertpapiere zum Handel an einem geregelten Markt beantragt. Allerdings wird die Notierung der Wertpapiere mit Wirkung zum 19. Dezember 2025 an den folgenden multilateralen Handelssystemen (multilateral trading facilities - MTF) beantragt:

- München - gettex (Freiverkehr) (gettex MTF)

Welches sind die zentralen Risiken, die für die Wertpapiere spezifisch sind?

Die nach Einschätzung der Emittentin wesentlichen Risiken, die für die Wertpapiere spezifisch sind, werden im Folgenden beschrieben:

Risiken aufgrund des Rangs und der Eigenschaft der Wertpapiere bei einem Ausfall der Emittentin: Die Wertpapierinhaber tragen das Insolvenzrisiko der Emittentin. Darüber hinaus können die Wertpapierinhaber von Abwicklungsmaßnahmen in Bezug auf die Emittentin betroffen sein, wenn die Emittentin ausfällt oder wenn ein Ausfall wahrscheinlich ist.

Spezifische Risiken, die sich aus dem Zahlungsprofil der Wertpapiere ergeben: Es besteht das zentrale Risiko, dass der Kurs des Basiswerts sinkt und dass der Kurs der Wertpapiere und die Zahlungen darunter überproportional nachteilig beeinflusst werden. Dadurch kann der Wertpapierinhaber einen Verlust des für die Wertpapiere gezahlten Betrags erleiden. Es ist sogar ein Totalverlust möglich. Die Kursentwicklung des Basiswerts kann den Wert der Wertpapiere aufgrund des für die Wertpapiere typischen Hebeleffekts überproportional nachteilig beeinflussen.

Risiken, die sich aus den Bedingungen der Wertpapiere ergeben: Die Wertpapierinhaber tragen ein Verlustrisiko, wenn die Wertpapiere von der Emittentin gekündigt werden. Die Wertpapiere werden dann zu ihrem Marktwert zurückgezahlt. Dieser ist möglicherweise niedriger als der Betrag, den der Wertpapierinhaber erhalten hätte, wenn keine außerordentliche Kündigung der Wertpapiere erfolgt wäre. Darüber hinaus tragen die Wertpapierinhaber ein Wiederanlagerisiko und ein Verlustrisiko, wenn eine Anpassung der Wertpapierbedingungen vorgenommen wird oder wenn eine Marktstörung eintritt.

Risiken betreffend die Anlage, das Halten und die Veräußerung der Wertpapiere: Die Wertpapierinhaber tragen das Risiko, dass der Marktpreis der Wertpapiere während der Laufzeit erheblich schwankt und sie die Wertpapiere nicht zu einer bestimmten Zeit oder zu einem bestimmten Kurs kaufen oder verkaufen können.

Risiken in Verbindung mit Aktien als Basiswert: Der Kurs einer Aktie kann stark fallen oder sie kann aufgrund einer Zahlungsunfähigkeit der Emittentin der Aktie wertlos werden. Eine Änderung in der Geschäftsentwicklung des Emittenten der Aktie kann den Kurs der Aktie für den Wertpapierinhaber nachteilig beeinflussen. Der Kurs einer Aktie kann aufgrund psychologischer Effekte an den Aktienmärkten stark schwanken. Im Fall außerordentlicher Ereignisse können sich die wesentlichen Eigenschaften und das Risikoprofil einer Aktie erheblich ändern.

Quali sono i principali rischi specifici dell'Emittente?

Rischi correlati alla situazione finanziaria dell'Emittente: Rischio che il Gruppo HVB non sia in grado di adempiere tempestivamente o pienamente alle proprie obbligazioni di pagamento o che non sia in grado di ottenere sufficiente liquidità quando richiesto nonché che la liquidità sia disponibile solo ad un tasso di interesse più alto, e rischio che la banca sia soltanto in grado di liquidare attività sul mercato a sconto potrebbe creare problemi di liquidità per il Gruppo HVB e, quindi, potrebbe comportare una limitata possibilità di finanziare le proprie attività e raggiungere i propri livelli minimi di liquidità.

Rischi relativi alle specifiche attività di business dell'Emittente: Rischi derivanti dalle normali attività di business del Gruppo HVB che potrebbero comportare rischio di credito nelle operazioni di *lending*, rischio di mercato nelle attività di negoziazione così come rischi relativi ad altre attività di business quali l'attività immobiliare del Gruppo HVB potrebbero avere un impatto negativo sui risultati operativi, sugli attivi e sulla situazione finanziaria del Gruppo HVB.

Rischi generali relativi alle operazioni commerciali dell'Emittente: Rischi derivanti da inadeguati o non riusciti processi interni, persone e sistemi o da eventi esterni così come rischi causati da reazioni avverse degli investitori a causa della loro percezione alterata della banca, rischi derivanti da inattesi cambiamenti avversi negli utili futuri della banca, nonché i rischi derivanti dalle concentrazioni di posizioni di rischio e/o di ricavo, potrebbero comportare perdite finanziarie, un declassamento del rating di HVB ed un aumento del rischio di impresa del Gruppo HVB.

Rischi legali e regolamentari: Cambiamenti del contesto regolamentare o statutario di HVB potrebbero comportare costi di capitale superiori e un aumento dei costi per l'implementazione dei requisiti regolamentari. L'eventuale non conformità a requisiti regolamentari, leggi (fiscali) regolamenti, previsioni statutarie, contratti, prassi obbligatorie e standard etici, potrebbe avere un impatto negativo sulla percezione pubblica del Gruppo HVB, nonché sui suoi utili e sulla sua situazione finanziaria.

Rischio strategico e macroeconomico: Rischi derivanti dal mancato riconoscimento tempestivo o da una valutazione non corretta di sviluppi o tendenze significative nell'ambiente della banca da parte del management e rischi derivanti da sviluppi economici negativi in Germania e nei mercati internazionali finanziari e dei capitali potrebbero avere effettivi negativi su attivi, passività, posizione finanziaria e profitto o perdite del Gruppo HVB. In particolare, le tensioni geopolitiche, il crescente protezionismo sottoforma di tariffe più alte, una crescita meno dinamica in Cina e una ripresa più lenta del previsto nel mercato immobiliare tedesco possono rappresentare significativi rischi negativi per l'economia tedesca. Inoltre, se uno qualunque dei suddetti rischi si materializzasse, potrebbe verificarsi un'instabilità sui mercati finanziari e di capitali.

Sezione 3 – Informazioni fondamentali sui Titoli

Il Portatore del Titolo ha il diritto di chiedere all'Emittente il pagamento dell'Importo Differenziale per Titolo (Diritto di Esercizio).

Il Diritto di Esercizio può essere esercitato dal Portatore del Titolo in ciascun giorno di negoziazione durante il Periodo di Esercizio.

Il Diritto di Esercizio, nella misura in cui non sia già stato efficacemente esercitato dal Portatore del Titolo, sarà automaticamente esercitato il 19/06/2026 (la "**Data di Valutazione Finale**").

L'Importo Differenziale sarà calcolato sottraendo lo Strike dal Relativo Prezzo di Riferimento. La differenza sarà moltiplicata per il Multiplo.

Diritto di riscatto straordinario: L'Emittente ha il diritto di estinguere in via straordinaria i Titoli ad un valore equo di mercato al verificarsi di certi Eventi di Call (*Call Events*) (ad esempio, se la quotazione del prezzo del Sottostante sul relativo mercato è definitivamente cessata).

Diritto di rettifica: I Termini e Condizioni (*Terms and Conditions*) dei Titoli possono essere rettificati dall'Agente di Calcolo (*Calculation Agent*) nel caso in cui si verifichi un Evento di Rettifica (*Adjustment Event*) (ad esempio ciascuna misura adottata dalla società che ha emesso il Sottostante o da una terza parte che, come conseguenza di un cambiamento nella posizione giuridica e finanziaria, influenza il Sottostante).

Stato dei Titoli: I Titoli costituiscono obbligazioni dirette, incondizionate e non garantite dell'Emittente. I Titoli sono parimenti ordinati (*pari passu*) con tutte le altre obbligazioni non garantite e non subordinate presenti e future dell'Emittente. Eccezione: obbligazioni che hanno un privilegio o una subordinazione ai sensi di legge.

Dove saranno negoziati i Titoli?

Non è stata presentata domanda per l'ammissione alla negoziazione dei Titoli su un mercato regolamentato. Peraltro, sarà presentata domanda per l'ammissione dei Titoli alla quotazione con efficacia a partire dal 19/12/2025 sui seguenti sistemi multilaterali di negoziazione (MTF):

- Munich - gettex (open market) (gettex MTF)

Quali sono i principali rischi specifici dei Titoli?

I fattori di rischio specifici relativi ai Titoli, che nell'opinione dell'Emittente sono significativi, sono descritti di seguito:

Rischio connesso al collocamento e caratteristiche dei Titoli in caso di fallimento dell'Emittente: I Portatori dei Titoli sono esposti al rischio di fallimento dell'Emittente. In aggiunta, i Portatori dei Titoli possono essere soggetti a misure di risoluzione in relazione all'Emittente se l'Emittente sta fallendo od è probabile che fallisca.

Rischi specifici connessi al profilo di pagamento dei Titoli: Vi è il particolare rischio che il prezzo del Sottostante diminuisca e che il valore dei Titoli e i pagamenti siano influenzati negativamente in maniera sproporzionata. Di conseguenza, il Portatore del Titolo può subire una perdita dell'importo pagato per l'acquisto dei Titoli. E' possibile anche una perdita totale. La performance del Sottostante può avere un effetto sproporzionatamente negativo sul valore dei Titoli a causa dell'effetto leva tipico dei Titoli.

Rischi derivanti dai Termini e Condizioni dei Titoli: I Portatori dei Titoli sono esposti ad un rischio di perdita nel caso in cui i Titoli siano estinti dall'Emittente. I Titoli saranno poi rimborsati al valore equo di mercato dei Titoli. Questo può essere inferiore rispetto all'importo che il Portatore del Titolo avrebbe ricevuto se non ci fosse stato un riscatto straordinario dei Titoli. In aggiunta, i Portatori del Titolo sono esposti al rischio di reinvestimento. Inoltre, i Portatori dei Titoli sono esposti ad un rischio di perdita se viene effettuata una rettifica dei Termini e Condizioni o se si verifica una turbativa del mercato.

Rischi connessi all'investimento, alla detenzione e vendita dei Titoli: I Portatori dei Titoli sono esposti al rischio che il prezzo di mercato dei Titoli può essere soggetto a forti variazioni nel corso della durata dei Titoli e che il Portatore del Titolo non sia in grado di acquistare o vendere i Titoli in un momento specifico o ad un prezzo specifico.

Rischi connessi ad Azioni come Sottostante: Il prezzo di un'Azione può diminuire notevolmente o può diventare di nessun valore a causa dell'insolvenza dell'emittente dell'Azione. Un cambiamento nello sviluppo del business dell'emittente dell'Azione può influire negativamente sul prezzo dell'Azione per il Portatore del Titolo. Il prezzo di un'Azione può fluttuare fortemente a causa di effetti psicologici sui mercati azionari. ¿Cuáles son los principales riesgos específicos del Emisor?

Riesgos relacionados con la situación financiera del Emisor: El riesgo de que el Grupo HVB no pueda cumplir con sus obligaciones de pago de manera puntual o íntegra, o de que no pueda obtener la liquidez necesaria cuando se requiera, así como el riesgo de que la liquidez solo esté disponible a tasas de interés más altas, y el riesgo de que el banco solo pueda liquidar activos en el mercado con descuento, podrían generar problemas de liquidez para el Grupo HVB y, en consecuencia, limitar su capacidad para financiar sus actividades y cumplir con los requisitos mínimos de liquidez.

Riesgos relacionados con las actividades comerciales específicas del Emisor: Los riesgos derivados de las actividades comerciales normales del Grupo HVB, que incluyen el riesgo de crédito en el negocio de préstamos, el riesgo de mercado en el negocio de negociación, así como los riesgos provenientes de otras actividades comerciales, como las actividades inmobiliarias del Grupo HVB, podrían tener un impacto adverso en los resultados operativos, los activos y la situación financiera del Grupo HVB.

Riesgos generales relacionados con las operaciones comerciales del Emisor: Los riesgos derivados de procesos internos inadecuados o fallidos, de personas y sistemas, o de eventos externos, los riesgos causados por reacciones adversas de las partes interesadas debido a una percepción modificada del banco, los riesgos derivados de cambios adversos inesperados en los ingresos futuros del banco, así como riesgos relacionados con concentraciones de riesgos y/o posiciones de ingresos, podrían generar pérdidas financieras, una rebaja en la calificación crediticia de HVB y un aumento del riesgo empresarial del Grupo HVB.

Riesgo legal y regulatorio: Cambios en el entorno regulatorio y legal de HVB podrían dar lugar a mayores costes de capital y un aumento de los costes relacionados con la implementación de requisitos regulatorios. En caso de incumplimiento de requisitos regulatorios, leyes (fiscales), normativas, disposiciones legales, acuerdos, prácticas obligatorias y estándares éticos, la percepción pública del Grupo HVB, así como sus ingresos y situación financiera, podrían verse negativamente afectados.

Riesgo estratégico y macroeconómico: Los riesgos derivados de que la dirección no reconozca a tiempo o no evalúe correctamente desarrollos o tendencias significativas en el entorno del banco, así como los riesgos derivados de desarrollos económicos negativos en Alemania y en los mercados financieros y de capital internacionales, podrían tener un efecto negativo sobre los activos, pasivos, la situación financiera y los resultados del Grupo HVB. En particular, las tensiones geopolíticas, el aumento del proteccionismo en forma de aranceles más altos, el menor dinamismo del crecimiento en China y una recuperación más lenta de lo esperado en el mercado inmobiliario alemán pueden representar importantes riesgos a la baja para la economía alemana. Además, si alguno de estos riesgos se materializa, podrían producirse turbulencias en los mercados financieros y de capital.

¿Cuáles son los principales riesgos específicos de los Valores?

Los factores de riesgo específicos relacionados con los Valores que, según la opinión del Emisor, son relevantes, se describen a continuación:

Riesgo relacionado con el rango y las características de los Valores en caso de insolvencia del Emisor: Los Tenedores de los Valores están expuestos al riesgo de insolvencia del Emisor. Además, pueden verse afectados por medidas de resolución si el Emisor se encuentra en situación de insolvencia o existe probabilidad de que incurra en ella.

Riesgos específicos relacionados con el perfil de pagos de los Valores: Existe un riesgo particular de que el precio del Subyacente disminuya y que el valor de los Valores y los pagos se vean afectados de manera desproporcionadamente negativa. Como consecuencia, el Tenedor de los Valores puede sufrir una pérdida del importe pagado para adquirir los Valores. Incluso es posible una pérdida total. El rendimiento del Subyacente puede tener un efecto desproporcionadamente negativo sobre el valor de los Valores debido al efecto de apalancamiento típico de estos instrumentos.

Riesgos derivados de los Términos y Condiciones de los Valores: Los Tenedores de los Valores asumen un riesgo de pérdida si los Valores son rescindidos por el Emisor. En tal caso, los Valores se reembolsarán a su valor justo de mercado, que puede ser inferior al importe que habría recibido el Tenedor de Valores si no hubiera producido dicha rescisión. Además, los Tenedores de los Valores asumen un riesgo de reinversión. También asumen un riesgo de pérdida si se ajustan los Términos y Condiciones o si se produce una perturbación del mercado.

Riesgos relacionados con la inversión, tenencia y venta de los Valores: Los Tenedores de los Valores asumen el riesgo de que el precio de mercado de los Valores pueda experimentar fuertes fluctuaciones durante su vigencia y de que no puedan comprarlos o venderlos en un momento determinado o a un precio específico.

Riesgos relacionados con las Acciones como Subyacente: El precio de una Acción puede caer bruscamente o incluso perder todo su valor debido a la insolvencia del emisor de la Acción. Un cambio en la evolución empresarial del emisor de la Acción puede afectar negativamente al precio de la Acción para el Tenedor del Valor. El precio de una Acción puede fluctuar considerablemente debido a efectos psicológicos en los mercados bursátiles. En caso de acontecimientos extraordinarios, las condiciones materiales y el perfil de riesgo de una Acción pueden cambiar significativamente.

Risques liés aux activités spécifiques de l'Emetteur : Risques découlant du cours normal des activités commerciales du Groupe HVB, ce qui comprend le risque de crédit dans le cadre de ses activités de prêt, le risque de marché lié aux activités de négociation ainsi que les risques d'autres secteurs d'activité tels que les activités immobilières du Groupe HVB pourraient avoir un effet défavorable sur les résultats d'exploitation (*operating results*), les actifs et la situation financière du Groupe HVB.

Risques généraux liés aux activités commerciales de l'Emetteur : Risques de pertes liés à des procédures internes, des personnes et des systèmes inadéquats ou défaillants ou à des événements externes ainsi que des risques causés par des réactions défavorables des parties prenantes dues à leur perception altérée de la banque, les risques de changements négatifs imprévus dans les revenus futurs de la banque de même que les risques émanant des concentrations du risque et/ou des revenus (*earning positions*), pourraient entraîner des pertes financières, une dégradation de la notation de HVB et une augmentation du risque opérationnel (*business risk*) du Groupe HVB.

En cas de non-respect des exigences réglementaires, des lois (fiscales), des règlements, des dispositions légales, des accords, des pratiques obligatoires et des normes éthiques, la perception du Groupe HVB par le public ainsi que ses revenus et sa situation financière pourraient être négativement affectées.

Risques stratégiques et macroéconomiques : Risques résultant de la reconnaissance tardive ou de l'évaluation incorrecte de la part de la direction des évolutions ou des tendances significatives de l'environnement au sein duquel évolue la banque et les risques liés à l'évolution de la situation économique en Allemagne et à l'évolution des marchés financiers et de capitaux internationaux pourraient avoir un effet négatif sur les actifs, passifs, la position financière et le résultat du Groupe HVB. En particulier, les tensions géopolitiques, la montée du protectionnisme sous forme de droits de douane plus élevés, la diminution de la croissance en Chine et une reprise plus lente que prévu du marché immobilier allemand peuvent constituer un risque majeur de baisse de l'économie allemande. En outre, la matérialisation de l'un des risques susmentionnés pourrait entraîner des turbulences sur les marchés financiers et de capitaux.

3. Section – Informations clés sur les Titres

Quels sont les principales caractéristiques des Titres?

Type de Produit, Sous-Jacent et nature des Titres

Type de Produit: Warrants Call de style Américain (*Call Warrants with American exercise*) (Non-Quanto)

Sous-Jacent: Intesa Sanpaolo S.p.A. (ISIN: IT0000072618)

Les Titres sont des titres de créance au porteur conformément à la Section 793 du Code Civil allemand (*Bürgerliches Gesetzbuch*). Les Titres seront émis sous forme dématérialisée sur le registre du dépositaire central (*Zentralregisterwertpapiere*) avec inscription en compte collectif (*Sammeleintragung*) et sont librement cessibles. Le code ISIN (*International Securities Identification Number*) des Titres est indiqué à la Section 1.

Emission et Maturité

Les Titres seront émis le 23/12/2025 et libellés en euros (EUR) (la "**Devise Prévvue**"), avec un nombre de 5.000.000 Warrants. À moins qu'ils ne soient déjà effectivement exercés par le Porteur de Titres, les Titres seront remboursés le 26/06/2026 (la "**Date de Paiement Finale**").

Droit d'Exercice

Le Porteur de Titres a le droit de demander à l'Emetteur le paiement du Montant Différentiel par Titre (Droit d'Exercice).

Le Droit d'Exercice peut être exercé par le Porteur de Titres durant chaque jour de négociation de la Période d'Exercice.

Le Droit d'Exercice, dans la mesure où il n'a pas déjà été valablement exercé par le Porteur de Titres, sera automatiquement exercé le 19/06/2026 (la "**Date de Constatation Finale**").

Le Montant Différentiel sera calculé en retranchant le Strike du Prix de Référence Concerné. La différence sera multipliée par le Ratio.

Le Montant Différentiel ne sera pas inférieur à EUR 0,001.

Dès l'exercice effectif du Droit d'Exercice, le Montant Différentiel sera payé cinq Jours de Banque après la Date de Constatation correspondante, mais pas après la Date de Paiement Finale.

Définitions supplémentaires et modalités du produit

Date de Constatation signifie la date à laquelle le Droit d'Exercice a été valablement exercé, cependant, pas après la Date de Constatation Finale.

Prix de Référence Concerné signifie le Prix de Référence du Sous-Jacent à la Date de Constatation correspondante.

Prix de Référence	Ratio	Strike	Période d'Exercice
Prezzo di Riferimento	1	EUR 6,75	19/12/2025 - 19/06/2026

Droits de résiliation extraordinaire: L'Emetteur a le droit de résilier de façon extraordinaire les Titres à leur juste valeur de marché à la survenance de certains Cas de Rappel (*Call Event*) (par exemple, si la cotation du prix du Sous-Jacent sur la bourse concernée cesse définitivement).

Droit d'ajustement: Les Modalités (*Terms and Conditions*) des Titres peuvent être ajustées par l'Agent de Calcul (*Calculation Agent*) si un Cas d'Ajustement (*Adjustment Event*) survient (par exemple, chaque mesure prise par la société qui a émis le Sous-Jacent ou par un tiers qui, en raison d'un changement de la situation juridique et financière, affecte le Sous-Jacent).

Rang des Titres: Les Titres constituent des obligations directes, inconditionnelles et non garanties de l'Émetteur. Les Titres ont un rang égal (*pari passu*) à celui de toutes les autres obligations non garanties et non subordonnées, présentes et futures, de l'Emetteur. Exception : les obligations qui ont un privilège ou une subordination en vertu de la loi.

Où les Titres seront-ils négociés?

Aucune demande d'admission des Titres à la négociation sur un marché réglementé n'a été effectuée. Cependant, une demande d'admission à la cotation prenant effet au 19/12/2025 sera effectuée sur les systèmes multilatéraux de négociations (SMN) suivants:

- Munich - gettex (open market) (SMN gettex)

Quels sont les principaux risques spécifiques aux Titres?

Les facteurs de risque spécifiques aux Titres, qui de l'avis de l'Emetteur sont significatifs, sont décrits ci-dessous:

Risque lié au rang et aux caractéristiques des Titres en cas de défaillance de l'Emetteur: Les Porteurs de Titres supportent le risque d'insolvabilité de l'Emetteur. De plus, les Porteurs de Titres peuvent faire l'objet de mesures de résolution à l'égard de l'Emetteur si ce dernier manque ou est susceptible de manquer à ses obligations.

Risques spécifiques liés au profil de paiement des Titres: Il existe un risque particulier que le cours du Sous-Jacent chute et que la valeur des Titres et les paiements soient négativement affectés de manière disproportionnée. En conséquence, le Porteur de Titres peut subir une perte du montant payé pour acquérir les Titres. Même une perte totale est possible. La performance du Sous-Jacent peut avoir un effet négatif disproportionné sur la valeur des Titres en raison de l'effet de levier caractéristique des Titres.

Risques découlant des Modalités des Titres: Les Porteurs de Titres courent un risque de perte si les Titres sont résiliés par l'Emetteur. Les Titres feront l'objet d'un remboursement à leur juste valeur de marché. Ce montant peut être inférieur au montant que le Porteur de Titres aurait reçu s'il n'y avait pas eu de résiliation extraordinaire des Titres. En outre, les Porteurs de Titres supportent un risque de réinvestissement. De plus, les Porteurs de Titres supportent un risque de perte en cas d'ajustement des Modalités ou en cas de perturbation du marché.

Risques liés à l'achat, la détention ou la vente des Titres: Les Porteurs de Titres supportent le risque que le prix de marché des Titres soit soumis à de fortes fluctuations pendant la durée de vie des Titres et que le Porteur de Titres ne soit pas en mesure d'acheter ou de vendre les Titres à un moment précis ou à un prix déterminé.

Risques liés au Sous-Jacent lorsqu'il s'agit d'une Action: Le prix d'une Action peut chuter abruptement ou perdre sa valeur en raison de l'insolvabilité de l'émetteur de l'Action. Un changement dans le développement commercial de l'émetteur d'une Action peut affecter négativement le prix de l'Action pour le Porteur de Titres. Le prix d'une Action peut fluctuer fortement en raison des effets psychologiques sur les marchés actions. En cas d'événements extraordinaires, les conditions matérielles et le profil de risque d'une Action peuvent changer significativement.
