However, the Variation may not itself give rise to any right of the Issuer to redeem the varied Securities. The Issuer shall give not less than 30 nor more than 60 days' prior notice of the Variation to the Paying Agent and the Securities Holders in accordance with § 6 of the General Conditions (the "**Variation Notice**"). - (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust these Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
- The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.
- The Calculation Agent determines all Adjustments according to this § 8 acting in accordance with relevant market practice and in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measure in accordance with paragraph (1) above:
- (a) *Adjustment of Adjustable Product Data:* The Calculation Agent may redefine the Adjustable Product Data based on an adjustment factor (e.g. in case of a split or a merger of Fund Shares).
 - (b) *Successor Fund:* If the Fund is replaced by a Successor Fund, all calculations or determinations described in these Terms and Conditions shall be made on the basis of the Successor Fund. If necessary, the Calculation Agent is also entitled to adjust the Product and Underlying Data against the background of the changed Underlying and the associated economic impact.
- (3) *Replacement of the Underlying:* If a Fund Replacement Event occurs, the Calculation Agent may replace the Underlying with a Replacement Underlying and if necessary redefine the Adjustable Product Data based on the adjusted Underlying and the associated economic effects. As a "**Replacement Underlying**" another fund (or the corresponding shares) or fund share can be considered which is comparable to the original Underlying or the corresponding Funds in terms of its risk profile, investment objectives, investment strategy, currency of the Fund Shares and calculation frequency of the NAV; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith. The economic characteristics of the Securities shall remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer. The Calculation Agent will only make a replacement if the replacement is reasonable for the Security Holders as well as the Issuer; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
- If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (5) below), every reference to the Underlying in these Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.
- (4) *Replacement Specification:* If a published NAV of the Underlying as required pursuant to these Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") is published by the Management Company after the original publication but prior to the Final Payment Date, then the

Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall specify the relevant value again using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions. However, if the Calculation Agent is informed of the Corrected Value less than two Banking Days prior to the date on which a payment whose amount is determined wholly or partly with reference to this price of the Underlying is to be made, then the relevant value will not be specified again.

- (5) *Notifications:* All adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holder according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

"**MREL Disqualification Event**" means that, at any time, all or part of the Series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements provided that: (a) the exclusion of a Series of such Securities from the MREL Requirements due to the remaining maturity of such Securities being less than any period prescribed thereunder, does not constitute a MREL Disqualification Event; (b) the exclusion of all or some of a Series of Securities due to there being insufficient headroom for such Securities within a prescribed exception to the otherwise applicable general requirements for eligible liabilities does not constitute a MREL Disqualification Event; and (c) the exclusion of all or some of a Series of Securities as a result of such Securities being purchased by or on behalf of the Issuer or as a result of a purchase which is funded directly or indirectly by the Issuer, does not constitute a MREL Disqualification Event.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment. The following risks are key risks specific to the Issuer:

Risks associated with the impact of current macroeconomic uncertainties and the effects of the geopolitical tensions: The market environment in which UniCredit operates continues to be affected by high levels of uncertainty for both the short and the medium-term outlook. The economic consequences stemming from the geopolitical tensions, not only in Russia, pushed up inflationary pressures and could continue to unfold increasing uncertainty for the euro area economy, with potential impact on the performance of the Group. The Russia-Ukraine crisis caused a sharp rise in commodities prices, further global supply-chain disruption, a tightening of financial conditions, heightened uncertainty, and a sharp drop in consumer confidence. As inflation builds up due to the increase in energy price and the supply disruptions, ECB changed its monetary stance (Deposit Facility rate: -50 bps in June 2022, 0 bps in July, 75 bps in September, 150 bps in October, 200 bps in December, 250 bps in February 2023, 300 bps in March, 325 bps in May, 350 bps in June, 375 bps in July, 400 bps in September) and market is repricing interest rate expectations. The outlook is still surrounded by risks, further tensions on commodity prices cannot be excluded and an upsurge in the ongoing Russia-Ukraine conflict cannot be ignored. Therefore, the expectations regarding the performance of the global economy remains still uncertain in both the short and medium term. The current environment, characterized by highly uncertain elements as above mentioned could generate a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement. On 9 December 2021 UniCredit presented to the financial community the 2022-2024 Strategic Plan, which included a set of strategic and financial objectives that considered the underlying scenario and resulted from the assessment performed at that time. The macro assumptions underlying the Strategic Plan excluded

unexpected materially adverse developments such as the Russia-Ukraine conflict and worsening/resurge of the COVID-19 pandemic, situations that UniCredit has been monitoring closely (From Strategic Plan presentation: Macro assumptions in the Strategic Plan consider the recent and existing impacts of COVID-19 at the time of the Plan presentation with a gradual normalization over the subsequent years. The scenario did not assume that the COVID-19 situation at that time would develop in a particularly negative way in the subsequent years).

Risks connected with the Strategic Plan 2022 – 2024: On 9 December 2021, UniCredit presented to the financial community in Milan the 2022-2024 Strategic Plan called "UniCredit Unlocked" (the "**Strategic Plan**" or "**Plan**") which contains a number of strategic, capital and financial objectives (the "**Strategic Objectives**"). The Strategic Plan focuses on UniCredit's geographic areas in which the Bank currently operates; with financial performance driven by three interconnected levers: cost efficiency, optimal capital allocation and net revenue growth. "UniCredit Unlocked" delivers strategic imperatives and financial ambitions based on six pillars. Such strategic imperatives and financial ambitions regard: (i) the growth in its regions and the development of its client franchise, changing its business model and how its people operate; (ii) the delivery of economies of scale from its footprint of banks, transforming the technology, leveraging Digital & Data and embedding sustainability in all that UniCredit does; (iii) driving financial performance via three interconnected levers. The macro assumptions underlying the Strategic Plan disclosed in December 2021 excluded unexpected materially adverse developments such as the Russia-Ukraine conflict and worsening/resurge of the COVID-19 pandemic, situations that UniCredit has been monitoring closely (From Strategic Plan presentation: Macro assumptions in the Strategic Plan consider the recent and existing impacts of COVID-19 at the time of the Plan presentation with a gradual normalization over the subsequent years. The scenario did not assume that the COVID-19 situation at that time would develop in a particularly negative way in the subsequent years). The Plan is based on six pillars: (i) optimise, through the improvement of operational and capital efficiency; (ii) invest, with targeted growth initiatives, including ESG; (iii) grow net revenues; (iv) increase return; (v) strengthen solidity thanks to revised CET1 ratio target and decrease of Gross NPE ratio; and (vi) distribute consistently with organic capital generation. UniCredit's ability to meet the Strategic Objectives and all forward-looking statements relies on a number of assumptions, expectations, projections and provisional data concerning future events and is hence subject to a number of uncertainties and additional factors, many of which are outside the control of UniCredit. For all these reasons, investors are cautioned against making their investment decisions based exclusively on the forecast data included in the Strategic Objectives. Any failure to implement the Strategic Objective or meet the Strategic Objectives may have a material adverse effect on UniCredit's business, financial condition or results of operations.

Credit risk and risk of credit quality deterioration: The activity, financial and capital strength and profitability of the UniCredit Group depend, among other things, on the creditworthiness of its customers. In carrying out its credit activities, the Group is exposed to the risk that an unexpected change in the creditworthiness of a counterparty may generate a corresponding change in the value of the associated credit exposure and give rise to the partial or total write-down thereof. The current environment continues to be characterised by highly uncertain elements, with the possibility that the slowdown of the economy, jointly with the termination of the safeguard measures, such as the customer loans moratorium, generates a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement. UniCredit's Loan Loss Provisions ("**LLPs**") increased Q/Q and increased Y/Y by 60.1 per cent to Euro 135 million in 3Q23. Therefore, the cost of risk increased by 10 bps Q/Q and increased by 5 bps Y/Y to 12 bps in 3Q23. The Group kept the amount of overlays on performing exposures flat Q/Q at Euro 1.75 billion, which substantially reinforces the Group's capacity to withstand macroeconomic shocks. As at 30 September 2023, Group gross NPEs were down by 13.1 per cent Y/Y and by 1.1 per cent Q/Q to Euro 12.0 billion in 3Q23 (while as at 30 June 2023 they were equal to Euro 12.1 billion) with gross NPE ratio of 2.7 per cent (-0.2 p.p. Y/Y, +0.1 Q/Q). As at 30 September 2023, Group Net NPEs stood at Euro 6.2 billion decreased compared to 30 June 2023 which attested at Euro 6.3 billion (Group Net NPE ratio stable compared to 30 June 2023 and is equal to 1.4 per cent.). UniCredit's LLPs in 9M23 amounted to Euro 249 million decreased by 81.8 per cent 9M/9M. Therefore the CoR was equal to 7 bps. The Group has adopted procedures, rules and principles aimed at monitoring and managing credit risk at both individual counterparty and portfolio level. However, there is the risk that, despite these credit risk monitoring and management activities, the Group's credit exposure may exceed predetermined risk's levels pursuant to the procedures, rules and principles it has adopted.

Liquidity Risk: Liquidity risk refers to the possibility that the UniCredit Group may find itself unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The activity of the UniCredit Group is subject in particular to funding liquidity risk, market liquidity risk, mismatch risk and contingency risk. The most relevant risks that the Group may face are: i) an exceptionally high usage of the committed and uncommitted lines granted to corporate customers; ii) an unusual withdrawal of sight and term deposits by UniCredit's retail and corporate customers; iii) the decline in the market value of the securities in which UniCredit invests its liquidity buffer; iv) the capacity to roll over the expiring wholesale funding and the potential cash or collateral outflows the Group may suffer in case of rating downgrades of both the banks or the sovereign debt in the geographies in which it operates. In addition to this, some risks may arise from the limitations applied to the cross-border lending among banks. Due to the financial market crisis, followed also by the reduced liquidity available to operators in the sector, the ECB has implemented important interventions in monetary policy, such as the "Targeted Longer-Term Refinancing Operation" ("**TLTRO**") introduced in 2014 and the TLTRO II introduced in 2016. These liquidity support operations are approaching their maturity. This would result in the need for banks to seek alternative sources of borrowing, without ruling out the difficulties of obtaining such alternative funding as well as the risk that the related costs could be higher. Such a situation could therefore adversely affect UniCredit's business, operating results and the economic and financial position of UniCredit and/or the Group. The main indicators used by the UniCredit Group to assess its liquidity profile are (i) the Liquidity Coverage Ratio (LCR), which represents an indicator of short-term liquidity subject to a minimum regulatory requirement of 100 per cent from 2018 and which was equal to 157 per cent in September 2023, whereas at 30 June 2023 was equal to 160 per cent (calculated as the average of the 12 latest end of month ratios), and (ii) the Net Stable Funding Ratio (NSFR), which represents the indicator of structural liquidity and which in September 2023 was above the internal limit set at 102.3 per cent within the risk appetite framework.

Basel III and Bank Capital Adequacy: The Issuer shall comply with the revised global regulatory standards ("**Basel III**") on bank capital adequacy and liquidity, which impose requirements for, inter alia, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. In terms of banking prudential regulations, the Issuer is also subject to the Bank Recovery and Resolution Directive 2014/59/EU of 15 May 2014 ("**BRRD**"), implemented in Italy with the Legislative Decree 180 and 181 of 16 November 2015 as amended by Directive (EU) 2019/879, the "**BRRD II**" (implemented in Italy by the Legislative Decree No. 193 of November 8, 2021), as well as the relevant technical standards and guidelines from EU regulatory bodies (i.e. the European Banking Authority (EBA)), which, inter alia, provide for recovery and resolution mechanisms and Minimum Requirement for Own Funds and Eligible Liabilities (MREL) for credit institutions. Should UniCredit not be able to meet the capital/MREL requirements imposed by the applicable laws and regulations, it may be required to maintain higher levels of capital/eligible liabilities which could potentially impact its credit ratings, and funding conditions and which could limit UniCredit's growth opportunities.

Product Type, Underlying and form of the Securities

Product Type: Protection Performance Securities (Non-Quanto)

The Securities are governed by Italian law. The Securities are debt instruments in dematerialized registered form pursuant to the Italian Consolidated Law on Financial Intermediation (*Testo Unico della Finanza*). The Securities will be represented by book entry and registered in the books of the Clearing System. The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System. The Securities will be issued on 22 May 2024 in Euro (EUR) (the "**Specified Currency**") up to 35,000 Certificates. The Securities have a defined term.

The value of the Securities during their term depends mainly on the price of the Underlying. In principle, the value of the Securities rises if the price of the Underlying rises and falls if the price of the Underlying falls.

Interest

The Securities do not bear interest.

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise.

At the Final Payment Date the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Performance of the Underlying (final) multiplied by the Final Participation Factor. The Redemption Amount will not be lower than the Minimum Amount.

Additional definitions and product terms

Performance of the Underlying (final) means the difference of (i) the quotient of R (final) as the numerator and R (initial) as the denominator and (ii) the Final Strike Level.

Conversion of the Securities by the Issuer: Upon the occurrence of one or more conversion events (for example, a Fund Replacement Event (for example a material change with respect to the risk profile of the Fund Shares or the Fund) occurred and no suitable Replacement Underlying is available or can be determined) (the "**Conversion Event**") the Issuer may convert the Securities and redeem them on the Final Payment Date by payment of the Settlement Amount. The "**Settlement Amount**" is the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event, as determined by the Calculation Agent. The Settlement Amount is in any case not less than the Minimum Amount.

Early redemption at the option of the Issuer: The Securities may be redeemed at any time in whole but not in part, at the option of the Issuer at their Optional Redemption Amount on or after the date specified in a notice published on the Issuer's website on giving notice to the Paying Agent and the Security Holders, if the Issuer determines that all or part of the Series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements (MREL Disqualification Event).

Adjustments to the Terms and Conditions: The Calculation Agent may adjust the Terms and Conditions of the Securities (in particular the Underlying and/or all prices of the Underlying which have been specified by the Calculation Agent) if an adjustment event (for example, the reduction of the number of Fund Shares of a shareholder in the Fund for reasons outside the control of the shareholder) or Fund Replacement Event (for example, a material change with respect to the risk profile of the Fund Shares or the Fund) (the "**Adjustment Event**") occurs.

Status of the Securities: The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Where will the Securities be traded?

Admission to trading: Application will be made for the Securities to be admitted to trading with effect from 22 May 2024 on the following markets: Regulierter Markt der Börse München (*Regulated Market of the Munich Stock Exchange*)

Listing: Application to listing will be made as of 22 May 2024 on the following markets: Regulierter Markt der Börse München (*Regulated Market of the Munich Stock Exchange*)

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying. However, the market value of the Securities will be affected by a number of additional factors. These are inter alia the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors.

Risks related to the Redemption Amount: The Securities will be redeemed at their maturity at the Redemption Amount. The Redemption Amount may be less than the purchase price. This means, the Security Holder only achieves a return if the Redemption Amount exceeds the individual purchase price of the Security Holder. Potential return from the Securities is limited in contrast to a direct investment in the Underlying.

Risks arising from missing ongoing payments: The Securities, do not bear interest or grant any other conditional or unconditional rights for ongoing payments which could compensate possible losses of principal.

Risks related to Fund Shares as Underlying: The Securities are associated with similar risks for the Security Holders as in case of a direct investment in the fund shares specified as Underlying. In particular, the investment activity of the investment fund can have a material adverse effect on the price of the relevant fund shares for the Security Holder.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Liquidity risk: There is a risk that the Securities may not be widely distributed and no active trading market may exist and may develop for the Securities. The Issuer may, but is not obliged to, purchase Securities at any time and at any price in the open market, by tender offer or private agreement. Any Securities purchased in this way by the Issuer may be held, resold or cancelled. A repurchase of Securities by the Issuer may adversely affect the liquidity of the Securities. The Issuer cannot therefore assure that a Security Holder will be able to sell his Securities at an adequate price prior to their redemption.

Welches sind die zentralen Risiken, die für die Emittentin spezifisch sind?

Potenzielle Anleger sollten sich darüber im Klaren sein, dass im Falle des Eintritts eines der unten genannten Risiken die Wertpapiere an Wert verlieren können und sie einen Totalverlust ihrer Anlage erleiden können. Bei den folgenden Risiken handelt es sich um Schlüsselrisiken, die spezifisch für die Emittentin gelten:

Risiken im Zusammenhang mit den Auswirkungen derzeitiger makroökonomischer Unwägbarkeiten und den Folgen der geopolitischen Spannungen: Das Marktumfeld, in dem UniCredit tätig ist, ist weiterhin von einem hohen Grad an Unsicherheit betroffen, sowohl im Hinblick auf die kurz- als auch auf die mittelfristigen Aussichten. Die aus den geopolitischen Spannungen resultierenden ökonomischen Folgen, nicht nur in Russland, haben den Inflationsdruck erhöht und könnten weiterhin zu einer zunehmenden Unsicherheit für die Wirtschaft des Eurogebiets führen, was nachteilige Auswirkungen auf die Entwicklung der Gruppe haben könnten. Die Russland-Ukraine-Krise führte zu einem starken Anstieg der Rohstoffpreise, einer weiteren Unterbrechung der globalen Versorgungsketten, einer Verschärfung der finanziellen Bedingungen, erhöhte Unsicherheit und einem starken Rückgang des Verbrauchertrauens. Da die Inflation infolge des Anstiegs der Energiepreise und der Versorgungsunterbrechungen ansteigt, änderte die EZB ihren geldpolitischen Kurs (Satz der Einlagefazilität: -50 Basispunkte im Juni 2022, 0 Basispunkte im Juli, 75 Basispunkte im September, 150 Basispunkte im Oktober, 200 Basispunkte im Dezember, 250 Basispunkte im Februar 2023, 300 Basispunkte im März, 325 Basispunkte im Mai, 350 Basispunkte im Juni,

375 Basispunkte im Juli, 400 Basispunkte im September) und der Markt bewertet die Zinserwartungen neu. Der Ausblick ist weiterhin mit Risiken behaftet, eine weitere Anspannung der Rohstoffpreise kann nicht ausgeschlossen und eine Ausweitung des laufenden Russland-Ukraine Konflikts nicht ignoriert werden. In der Folge bleiben die Erwartungen hinsichtlich der Entwicklung der Weltwirtschaft weiterhin sowohl kurz- als auch mittelfristig ungewiss. Das aktuelle, von großen Unsicherheiten geprägte Umfeld, wie oben beschrieben, könnte zu einer Verschlechterung der Qualität des Kreditportfolios führen, gefolgt von einem Anstieg der notleidenden Kredite und der Notwendigkeit, die in der Gewinn- und Verlustrechnung zu erfassenden Rückstellungen zu erhöhen. Am 9. Dezember 2021 stellte UniCredit der Finanzwelt ihren 2022-2024 Strategic Plan vor, der eine Reihe von strategischen und finanziellen Zielen enthält, die das zugrundeliegende Szenario berücksichtigt haben und das Ergebnis der zu dieser Zeit durchgeführten Beurteilung waren. Die dem Strategic Plan zugrunde liegenden Makro-Annahmen enthielten keine unerwarteten, wesentlich nachteiligen Entwicklungen, wie den Russland-Ukraine Konflikt und eine Verschlimmerung/ein Wiederaufleben der COVID-19 Pandemie, Situationen, die UniCredit genau beobachtet hat (Aus der Präsentation des Strategic Plan: Die Makro-Annahmen im Strategic Plan gehen bei den jüngsten und bestehenden Auswirkungen von COVID-19 zum Zeitpunkt der Präsentation des Plans von einer allmählichen Normalisierung in den nachfolgenden Jahren aus. Das Szenario nahm zu dieser Zeit nicht an, dass sich die COVID-19 Situation in den nachfolgenden Jahren besonders ungünstig entwickeln wird).

Risiken im Zusammenhang mit dem Strategic Plan 2022 – 2024: Am 9. Dezember 2021, präsentierte UniCredit der Finanzwelt in Mailand den 2022-2024 Strategic Plan mit der Bezeichnung "UniCredit Unlocked" (der "**Strategic Plan**" oder "**Plan**"), der eine Reihe von strategischen, kapitalbezogenen und finanziellen Zielen enthält (die "**Strategischen Ziele**"). Der Strategieplan konzentriert sich auf die geografischen Gebiete, in denen UniCredit derzeit tätig ist, wobei die finanzielle Leistung durch drei miteinander verbundene Hebel gesteuert wird: Kosteneffizienz, optimale Kapitalallokation und Nettoertragswachstum. UniCredit Unlocked enthält strategische Vorgaben und finanzielle Ziele, die sich auf sechs Säulen stützen. Die strategischen Vorgaben und finanziellen Ziele sehen vor: (i) das Wachstum in den Regionen und die Entwicklung des Kundenstamms, die das Geschäftsmodell und die Arbeitsweise der Mitarbeiter verändern; (ii) die Erzielung von Skaleneffekten aus ihrem Bankennetzwerk, die Umgestaltung der Technik zur Stärkung von Digitalisierung und Daten und die Verankerung von Nachhaltigkeit in allen Aktivitäten von UniCredit; (iii) Förderung der finanziellen Leistungsfähigkeit über drei miteinander verbundene Hebel. Die dem im Dezember 2021 veröffentlichten Strategic Plan zugrunde liegenden Makro-Annahmen enthielten keine unerwarteten, wesentlich nachteiligen Entwicklungen, wie den Russland-Ukraine Konflikt und eine Verschlimmerung/ein Wiederaufleben der COVID-19 Pandemie, Situationen, die UniCredit genau beobachtet hat (Aus der Präsentation des Strategic Plan: Die Makro-Annahmen im Strategic Plan gehen bei den jüngsten und noch bestehenden Auswirkungen von COVID-19 um Zeitpunkt der Präsentation des Plans von einer allmählichen Normalisierung in den nachfolgenden Jahren aus. Das Szenario nahm zu dieser Zeit nicht an, dass sich die COVID-19 Situation in den nachfolgenden Jahren besonders ungünstig entwickeln wird). Die sechs Säulen sind: (i) Optimierung durch Verbesserung der Betriebs- und Kapitaleffizienz; (ii) Investitionen, mit gezielten Wachstumsinitiativen, einschließlich ESG; (iii) Steigerung der Nettoerträge; (iv) Erhöhung der Rendite; (v) Stärkung der Solidität dank überarbeitetem CET1-Quotenziel und Rückgang der Brutto-NPE-Quote; und (vi) konsequente Ausschüttungen bei organischem Kapitalaufbau. Die Fähigkeit von UniCredit, die Strategischen Ziele und alle Prognosen zu erreichen, hängt von einer Reihe von Annahmen, Erwartungen, Projektionen und vorläufigen Daten über künftige Ereignisse ab, die somit einer Reihe von Unsicherheiten und zusätzlichen Faktoren unterliegen, von denen viele außerhalb der Kontrolle von UniCredit liegen. Aus all diesen Gründen werden die Anleger davor gewarnt, ihre Investitionsentscheidungen ausschließlich auf der Grundlage der in den Strategischen Zielen enthaltenen Prognosedaten zu treffen. Sollte es nicht gelingen, das Strategische Ziel umzusetzen oder die Strategischen Ziele zu erreichen, könnte dies erhebliche nachteilige Auswirkungen auf die Geschäftstätigkeit, die Finanzlage oder das Ergebnis von UniCredit haben.

Kreditrisiko und Risiko der Verschlechterung der Kreditqualität: Die Geschäftstätigkeit, die Finanz- und Kapitalkraft und die Rentabilität der UniCredit Gruppe hängen unter anderem von der Kreditwürdigkeit ihrer Kunden ab. Bei der Ausübung ihrer Kreditgeschäfte ist die Gruppe dem Risiko ausgesetzt, dass eine unerwartete Veränderung der Kreditwürdigkeit einer Gegenpartei zu einer entsprechenden Veränderung des Wertes des damit verbundenen Kreditengagements führt und eine teilweise oder vollständige Abschreibung desselben zur Folge hat. Das gegenwärtige Umfeld ist nach wie vor durch ein hohes Maß an Ungewissheit gekennzeichnet, wobei die Möglichkeit besteht, dass die Verlangsamung der Wirtschaft zusammen mit der Beendigung der Schutzmaßnahmen, wie z. B. dem Moratorium für Kundenkredite, zu einer Verschlechterung der Qualität des Kreditportfolios führt, gefolgt von einem Anstieg der notleidenden Kredite und der Notwendigkeit, die in der Gewinn- und Verlustrechnung zu verbuchenden Rückstellungen zu erhöhen. Die Kreditrisikovorsorge (*Loan Loss Provisions – "LLPs"*) der UniCredit stieg im dritten Quartal 23 gegenüber dem Vorquartal (Q/Q) und stieg gegenüber dem Vorjahr (Y/Y) um 60,1 Prozent auf 135 Millionen Euro im 3. Quartal. Daher stiegen die Risikokosten gegenüber dem Vorquartal um 10 Basispunkte (Q/Q) und stiegen gegenüber dem Vorjahr um 5 Basispunkte (Y/Y) auf 12 Basispunkte im 3. Quartal an. Die Gruppe hielt den Betrag der Überdeckungen für nicht-notleidende Engagements mit 1,75 Milliarden Euro gegenüber dem Vorquartal (Q/Q) konstant, was die Fähigkeit der Gruppe, makroökonomischen Schocks zu widerstehen, erheblich stärkt. Zum 30. September 2023 gingen die Brutto-NPEs der Gruppe im 3. Quartal 23 gegenüber dem Vorjahr (Y/Y) um 13,1 Prozent und gegenüber dem Vorquartal (Q/Q) um 1,1 Prozent auf 12,0 Milliarden Euro (während sie zum 30. Juni 2023 12,1 Milliarden Euro betrugen) bei einer brutto NPE-Quote von 2,7 Prozent (- 0,2 p.p. gegenüber dem Vorjahr (Y/Y), + 0,1 gegenüber dem Vorquartal (Q/Q)) zurück. Zum 30. September 2023 beliefen sich die Netto-NPEs der Gruppe auf 6,2 Milliarden Euro, ein Rückgang gegenüber dem 30. Juni 2023, als sie 6,3 Milliarden Euro betrugen (die Netto-NPE-Quote der Gruppe blieb im Vergleich zum 30. Juni 2023 stabil und lag bei 1,4 Prozent). Im September 2023 lagen die LLPs der UniCredit bei 249 Millionen Euro und sanken gegenüber dem vorhergehenden Halbjahr um 81,8 Prozent im Jahresvergleich. Aus diesem Grund lagen die Risikokosten (*Cost of Risk – CoR*) bei 7 Basispunkten. Die Gruppe hat Verfahren, Regeln und Grundsätze zur Überwachung und Steuerung des Kreditrisikos sowohl auf der Ebene der einzelnen Gegenpartei als auch auf Portfolioebene eingeführt. Es besteht jedoch das Risiko, dass trotz dieser Kreditrisikoüberwachungs- und -managementaktivitäten das Kreditengagement der Gruppe die gemäß den von ihr angenommenen Verfahren, Regeln und Grundsätzen festgelegten Risikogrenzen überschreitet.

Liquiditätsrisiko: Das Liquiditätsrisiko bezieht sich auf die Möglichkeit, dass die UniCredit Gruppe nicht in der Lage sein könnte, ihren gegenwärtigen und zukünftigen, erwarteten und unvorhergesehenen Zahlungs- und Lieferverpflichtungen nachzukommen, ohne ihr Tagesgeschäft oder ihre Finanzlage zu beeinträchtigen. Die Geschäftstätigkeit der UniCredit Gruppe unterliegt insbesondere dem Finanzierungsliquiditätsrisiko, dem Marktliquiditätsrisiko, dem Inkongruenzrisiko und dem Eventualrisiko. Die wesentlichsten Risiken, mit denen die Gruppe konfrontiert sein könnte, sind: i) eine außergewöhnlich hohe Inanspruchnahme der zugesagten und nicht zugesagten Kreditlinien für Firmenkunden; ii) ein ungewöhnlicher Abfluss von Sicht- und Termineinlagen von UniCredits Privat und Geschäftskunden; iii) ein Marktwertverlust der Wertpapiere, in denen UniCredit ihre Liquiditätspuffer anlegt; iv) die Fähigkeit, die auslaufende Finanzierung am Großkreditmarkt zu verlängern, und die eventuellen Abflüsse von Barmitteln oder Sicherheiten, die die Gruppe im Falle einer Rating-Herabstufung sowohl der Banken als auch der Staatsschulden in den Ländern, in denen sie tätig ist, erleiden könnte. Darüber hinaus können sich einige Risiken aus den Beschränkungen ergeben, die für die grenzüberschreitende Kreditvergabe zwischen Banken gelten. Aufgrund der Finanzmarktkrise und der damit einhergehenden geringeren Liquidität für die Akteure des Sektors hat die EZB wichtige geldpolitische Maßnahmen ergrieffen, wie die 2014 eingeführte "Targeted Longer-Term Refinancing Operation" ("**TLTRO**") und die 2016 eingeführte TLTRO II. Diese Liquiditätsstützungsmaßnahmen nähern sich ihrem Ende. Dies würde dazu führen, dass die Banken nach alternativen Finanzierungsquellen suchen müssten, wobei die Schwierigkeiten bei der Beschaffung solcher alternativen Finanzierungen und das Risiko, dass die damit verbundenen Kosten höher sein könnten, nicht auszuschließen sind. Eine solche Situation könnte sich daher nachteilig auf die Geschäftstätigkeit, die Betriebsergebnisse sowie die wirtschaftliche und finanzielle Lage von UniCredit und/oder der Gruppe auswirken. Die wichtigsten Indikatoren, die von der UniCredit Gruppe zur Bewertung ihres Liquiditätsprofils verwendet werden, sind (i) die Liquiditätsdeckungsquote (*Liquidity Coverage Ratio, LCR*), die einen Indikator für die kurzfristige Liquidität darstellt, für die ab 2018 eineaufsichtsrechtliche Mindestanforderung von 100 Prozent gilt, und die im September 2023 157 Prozent betrug, während sie am 30. Juni 2023 bei 160 Prozent lag (berechnet als Durchschnitt der zwölf letzten Monatsendquoten), und (ii) die strukturelle Liquiditätsquote (*Net Stable Funding Ratio, NSFR*), die

den Indikator für die strukturelle Liquidität darstellt und im September 2023 über dem internen Limit lag, das im des Rahmens für die Risikotragfähigkeit in Höhe von 102,3 Prozent festgelegt wurde.

Basel III und die Angemessenheit der Eigenkapitalausstattung von Banken: Die Emittentin muss die überarbeiteten globalen Regulierungsstandards ("Basel III") für die angemessene Eigenkapitalausstattung und Liquidität von Banken einhalten, die unter anderem höhere und hochwertigere Eigenkapitalanforderungen, eine bessere Risikodeckung, Maßnahmen zur Förderung des Aufbaus von Kapital, das in Stressphasen abgerufen werden kann, und die Einführung einer Leverage Ratio als Ergänzung zu den risikobasierten Anforderungen sowie zwei globale Liquiditätsstandards vorsehen. In Bezug auf die bankenaufsichtsrechtlichen Vorschriften unterliegt die Emittentin auch der Richtlinie 2014/59/EU vom 15. Mai 2014 über die Sanierung und Abwicklung von Kreditinstituten ("BRRD"), umgesetzt in Italien durch die Gesetzesdekrete 180 und 181 vom 16. November 2015 – wie durch die Richtlinie (EU) 2019/879 geändert, die "BRRD II" (in Italien umgesetzt durch das Gesetzesdekrete Nr. 193 vom 8. November 2021 und die einschlägigen technischen Standards und Leitlinien der EU-Aufsichtsbehörden (d.h. der Europäischen Bankenaufsichtsbehörde (EBA)), die u.a. Sanierungs- und Abwicklungsmechanismen sowie Mindestanforderungen an Eigentum und berücksichtigungsfähige Verbindlichkeiten (*Minimum Requirements for Own Funds and Eligible Liabilities* – MREL) für Kreditinstitute vorsehen. Sollte UniCredit nicht in der Lage sein, die durch die geltenden Gesetze und Vorschriften auferlegten Kapital-/MREL-Anforderungen zu erfüllen, könnte sie gezwungen sein, ein höheres Niveau an Kapital und berücksichtigungsfähigen Verbindlichkeiten aufrechtzuerhalten, was sich möglicherweise auf ihre Kreditwürdigkeit und ihre Finanzierungsbedingungen auswirken und die Wachstumsmöglichkeiten von UniCredit einschränken könnte.

Anpassung der Wertpapierbedingungen: Die Berechnungsstelle kann eine Anpassung der Wertpapierbedingungen vornehmen (insbesondere den betreffenden Basiswert und/oder alle von der Berechnungsstelle festgestellten Kurse des Basiswerts), wenn ein Anpassungsergebnis (zum Beispiel die Reduzierung der Anzahl von Fondsanteilen eines Anteilseigners am Fonds aus Gründen, die außerhalb der Kontrolle des Anteilseigners liegen) oder ein Fondsersetzungsergebnis (zum Beispiel eine wesentliche Änderung in Bezug auf das Risikoprofil der Fondsanteile oder des Fonds) (das "Anpassungsergebnis") eintritt.

Welches sind die zentralen Risiken, die für die Wertpapiere spezifisch sind?

Kreditrisiko der Emittentin und Risiken im Zusammenhang mit Abwicklungsmaßnahmen in Bezug auf die Emittentin: Die Wertpapiere stellen unbesicherte Verbindlichkeiten der Emittentin gegenüber den Wertpapierinhabern dar. Jede Person, die die Wertpapiere erwirbt, verlässt sich daher auf die Kreditwürdigkeit der Emittentin und hat in Bezug auf ihre Position unter den Wertpapieren keine Rechte oder Ansprüche gegenüber einer anderen Person. Die Wertpapierinhaber unterliegen dem Risiko einer vollständigen oder teilweisen Nichterfüllung der Verpflichtungen, die die Emittentin aus den Wertpapieren zu erfüllen hat, zum Beispiel im Falle der Insolvenz der Emittentin. Je schlechter die Kreditwürdigkeit der Emittentin ist, desto höher ist das Risiko eines Verlustes. Im Falle der Realisierung des Kreditrisikos der Emittentin kann der Wertpapierinhaber einen Totalverlust seines Kapitals erleiden, selbst wenn die Wertpapiere bei ihrer Fälligkeit einen Mindestbetrag vorsehen. Darüber hinaus können die Wertpapierinhaber von Abwicklungsmaßnahmen in Bezug auf die Emittentin betroffen sein, wenn die Emittentin ausfällt oder auszufallen droht. Die Verbindlichkeiten der Emittentin aus den Wertpapieren sind nicht besichert, durch Dritte garantiert oder durch ein Einlagensicherungs- oder Entschädigungssystem geschützt.

Risiken im Zusammenhang mit marktwertbeeinflussenden Faktoren: Der Marktwert der Wertpapiere sowie die aus den Wertpapieren ausschüttbaren Beträge hängen in erster Linie vom Kurs des Basiswerts ab. Der Marktwert der Wertpapiere wird jedoch von einer Reihe weiterer Faktoren beeinflusst. Dies sind unter anderem die Kreditwürdigkeit der Emittentin, die jeweils geltenden Zinssätze und Renditen, der Markt für ähnliche Wertpapiere, die allgemeinen wirtschaftlichen, politischen und konjunkturellen Bedingungen, die Handelbarkeit und gegebenenfalls die Restlaufzeit der Wertpapiere sowie weitere basiswertbezogene marktwertbeeinflussende Faktoren.

Risiken im Zusammenhang mit dem Rückzahlungsbetrag: Die Wertpapiere werden bei ihrer Fälligkeit zum Rückzahlungsbetrag zurückgezahlt. Der Rückzahlungsbetrag kann niedriger sein als der Kaufpreis. Das bedeutet, dass der Wertpapierinhaber nur dann eine Rendite erzielt, wenn der Rückzahlungsbetrag den individuellen Kaufpreis des Wertpapierinhabers übersteigt.

Risiken, die sich aus ausbleibenden laufenden Zahlungen ergeben: Die Wertpapiere werden nicht verzinst oder gewähren irgendwelche anderen bedingten oder unbedingten Rechte auf laufende Zahlungen, die mögliche Kapitalverluste ausgleichen könnten.

Risiken im Zusammenhang mit Fondsanteilen als Basiswert: Die Wertpapiere sind für die Wertpapierinhaber mit ähnlichen Risiken verbunden wie im Falle einer Direktanlage in die als Basiswert angegebenen Fondsanteile. Insbesondere kann sich die Anlagetätigkeit des Investmentfonds für den Wertpapierinhaber erheblich nachteilig auf den Kurs der betreffenden Fondsanteile auswirken.

Risiken im Zusammenhang mit möglichen Interessenkonflikten: Es kann zu Interessenkonflikten in Bezug auf den jeweiligen Emittenten oder die mit dem Angebot betrauten Personen kommen, die zu einer Entscheidung zu Ungunsten des Wertpapierinhabers führen können.

Liquiditätsrisiko: Es besteht das Risiko, dass die Wertpapiere nicht weit verbreitet sind und kein aktiver Handelsmarkt für die Wertpapiere besteht und sich entwickelt. Die Emittentin ist berechtigt, aber nicht verpflichtet, Wertpapiere jederzeit und zu jedem Preis auf dem freien Markt, durch ein Übernahmeangebot oder eine private Vereinbarung zu erwerben. Die Emittentin kann die auf diese Weise erworbenen Wertpapiere halten, weiterverkaufen oder entwerten. Ein Rückkauf von Wertpapieren durch die Emittentin kann sich nachteilig auf die Liquidität der Wertpapiere auswirken. Die Emittentin kann daher nicht gewährleisten, dass ein Wertpapierinhaber in der Lage sein wird, seine Wertpapiere vor deren Rückzahlung zu einem angemessenen Preis zu verkaufen.
