## Section D – Risks

Element	Title	
D.2	<b>Key risks regarding the Issuers [and the Guarantor]</b>	<p>In purchasing Notes, investors assume the risk that the Issuers and the Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuers and the Guarantor becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuers and the Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuers' and the Guarantor's control. The Issuers and the Guarantor have identified a number of factors which could materially adversely affect their businesses and ability to make payments due under the Notes. These factors include:</p> <ul style="list-style-type: none"> <li>• risks concerning liquidity which could affect the UniCredit Group's ability to meet its financial obligations as they fall due;</li> <li>• the UniCredit Group's results of operations, business and financial condition have been and will continue to be affected by adverse macroeconomic and market conditions;</li> <li>• the European sovereign debt crisis has adversely affected, and may continue to, adversely affect the Group's results of operations, business and financial condition;</li> <li>• the Group has exposure to European sovereign debt;</li> <li>• the liquidity available at country level could be subject to restrictions due to legal regulatory and political constraints;</li> <li>• systemic risk could adversely affect the Group's business;</li> <li>• risks connected to an economic slowdown and volatility of the financial markets – credit risk;</li> <li>• deteriorating asset valuations resulting from poor market conditions may adversely affect the Group's future earnings;</li> <li>• the economic conditions of the geographic markets in which the Group operates have had, and may continue to have, adverse effects on the Group's results of operations, business and financial condition;</li> <li>• non-traditional banking activities expose the Group to additional credit risks;</li> <li>• unidentified or unanticipated risks, by their nature, might not be captured in the current Group's risk management policies;</li> <li>• fluctuations in interest and exchange rates may affect the Group's results;</li> <li>• changes in the Italian and European regulatory framework could</li> </ul>
