Call (+39)0289442088 for more information.

Competent Authority: Commissione Nazionale per le Società e la Borsa (CONSOB)

Production date of the KID: 16/07/2021

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type

An Over the Counter (OTC) derivative contract – Interest Rate Swap

Objectives

Interest rate swaps are used for managing interest rate risks.

An interest rate swap is an agreement between two contracting parties (client/UniCredit S.p.A.) to exchange interest payments, calculated on a notional amount during the contractually agreed term. The interest payments are exchanged at certain agreed dates. Terms of up to ten years are customary. The term of this agreement is divided into individual interest periods, which are determined by the period applicable to the reference rate.

In an Interest Rate Swap you pay a fixed interest rate and receive a floating interest rate (reference rate, if applicable plus a spread) in the same currency. The fixed interest rate is determined when the contracting parties enter into the swap. The reference rate (e.g. EURIBOR) is reset two banking days before the start of a respective interest period. Any reference rate with applicable periods (e.g. 3 month EURIBOR) can be selected as base for the floating interest payments. In general the parties agree to offset the two interest payments, so that only the amount in excess at the end of each interest period is actually paid. If the floating interest rate and/or the fixed interest rate is negative, the direction of the respective interest payment changes.

The notional amount of the Interest Rate Swap serves merely to calculate the respective interest payment. There is no amount payable/receivable equal to the notional amount.

You can enter into this product also in a foreign currency.

Sample product details set out below have only an illustrative purpose, are based on predefined realistic assumptions and may not match your specific contract details.

Term	10 Years	Notional amount	EUR 10,000
Client pays (fixed interest rate)	0.47% p.a. quarterly payments day-count convention act/360	Client receives (floating interest rate)	3 months EURIBOR quarterly payments day-count convention act/360
Day-count convention	act/360 means: Interest days in the counter are based on the number of calendar days. The calendar year in the denominator is set for 360 days. 30/360 means: The calendar month consists of 30 interest days. The calendar year is set for 360 days.		

Intended retail investor

This product is designed for retail investors who

- hold this product for the contractually agreed term,
- are in the position to bear losses that may be unlimited and
- have above-average theoretical knowledge of, or past experience with packaged retail and insurance-based investment products (PRIIPs) that may be complex and difficult to understand and the financial markets.

2. What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 7 out of 7, which is the highest risk class.

Be aware of currency risk. You may pay and/or receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

In some circumstances you may be required to make payments to pay for losses. The total loss you may incur may be significant.

This product does not include any protection from future market performance so you could incur significant losses.

If we are not able to pay you what is owed you could incur significant losses.

Performance Scenarios

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

Notional amount EUR 10,000		1 year	5 Years	10 Years (Recommended holding period)
Stress scenario	What you might get back after costs	EUR -537	EUR -716	EUR -1,262
	Average return/loss each year	-5.37%	-1.43%	-1.26%
Unfavourable scenario	What you might get back after costs	EUR -529	EUR -688	EUR -1,249
	Average return/loss each year	-5.29%	-1.38%	-1.25%
Moderate scenario	What you might get back after costs	EUR -527	EUR -682	EUR -1,194
	Average return/loss each year	-5.27%	-1.36%	-1.19%
Favourable scenario	What you might get back after costs	EUR -525	EUR -657	EUR -1,121
	Average return/loss each year	-5.25%	-1.31%	-1.12%

This table shows the money you could get back or pay over the next 10 years, under different scenarios, assuming a notional amount of EUR 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. This product cannot be easily ended. This means it is difficult to estimate how much you would get if you end the product before maturity. You will either be unable to end early or you will have to pay high costs or make a large loss if you do so.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if UniCredit S.p.A. is unable to pay out?

The investment on this product is exposed to the credit risk, meaning in the case UniCredit S.p.A., as a result of the reduction of its solvency due to financial trouble, bankruptcy, insolvency or over-indebtedness, becomes unable to fully repay the amounts that are due in relation to this product. In the case, you may lose in full or in part the payments you made or suffer unlimited losses.

Furthermore, according to the applicable law on "Bail-in", the competent resolution authorities may take certain resolution measures, such as the early termination of the derivative transactions. In this case, you are exposed to the risk of partial or complete reduction of your claim or in a conversion of you claim in to equity, in a permanent way, even without a formal insolvency declaration by UniCredit S.p.A.

This product does not benefit from the guarantees provided by the Interbank Deposit Protection Fund.

4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the performance of the product. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself for the recommended holding period. The figures assume a notional amount of EUR 10,000. The figures are estimates and may change in the future.

Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time. The following table is based on the recommended holding period which is equal to the contractually agreed term.

Notional amount EUR 10,000 Scenarios	If you end after 10 years (Recommended holding period)
Total costs	EUR 520
Impact on return (RIY) per year	0.52%

Composition of costs

The table below shows:

- the impact each year of the different types of costs on the performance of the product at the end of the recommended holding period;
- the meaning of the different cost categories.

This table shows the impact on return per year			
One-off costs	Entry Costs	0.52%	The impact of the costs already included in the price. This is the most you will pay, and you could pay less. This includes the costs of distribution of your product.
	Exit costs	0%	No costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0%	Not applicable.
	Other ongoing costs	0%	Not applicable.
Incidental costs	Performance fees	0%	Not applicable.
	Carried interests	0%	Not applicable.

5. How long should I hold it and can I take money out early?

Recommended holding period: 10 Years

The recommended holding period is equal to the contractually agreed term. You are not entitled to terminate the product unilaterally before the end of the contractually agreed term. This does not apply in case you have contractually agreed with UniCredit S.p.A. that one party or both parties have the right to prematurely terminate this product upon notice to the other party and subject to a compensation payment (contractual early termination clause).

6. How can I complain?

You can make complaints about the product, or about the behaviour of the manufacturer of the product or of the persons that provide advice regarding or who sell the product, on the Internet website www.unicredit.it, or by registered mail return receipt or via e-mail to: UniCredit S.p.A Customer Satisfaction Italy & Claims, Via Del Lavoro, 42 - 40127 Bologna, Email: Reclami@unicredit.eu, Tel.+39 051.6407285 - Fax +39 051.6407229, PEC (certified email address): Reclami@PEC.UniCredit.EU

7. Other relevant information

Additional product information is available on request. UniCredit S.p.A. reviews this Key Information Document at least once a year. The latest version of the document is available for you on website www.unicredit.it/KID. You can obtain at UniCredit S.p.A. branches, on request, free of charge, in paper format, the latest version and the older versions of the Key Information Document. Specific information on this product are available in the "Scheda Informativa".

Further information on OTC derivative instruments can be found in the "Documento Informativo" which UniCredit S.p.A. must deliver to you and is available on the website <https://www.unicredit.it/it/info/normativa-mifid.html>
