Production date of the KID: 09/12/2022

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type

An Over the Counter (OTC) derivative contract – Sustainability linked Interest Rate Swap Protetto

Term

The product has a fixed contractually agreed term and will terminate after 5 years.

Objectives

Sustainability linked Interest Rate Swaps Protetto are used for managing interest rate risks arising from a indebtedness linked to sustainability objectives.

A Sustainability linked Interest Rate Swap Protetto is an agreement between two contracting parties (client/UniCredit S.p.A.) to exchange interest payments, calculated on a notional amount during the contractually agreed term. The interest payments are exchanged at certain agreed dates. Terms of up to ten years are customary. The term of this agreement is divided into individual interest periods, which are determined by the period applicable to the reference rate.

In a Sustainability linked Interest Rate Swap Protetto you pay a fixed interest rate and receive a floating interest rate, equal to the higher of a reference rate (e.g. EURIBOR) and an agreed floor rate (if applicable plus a spread) in the same currency. The fixed interest rate is determined when the contracting parties enter into the swap. The reference rate is reset two banking days before the start of a respective interest period. Any reference rate with applicable periods (e.g. 3 month EURIBOR) can be selected as base for the floating interest payments.

The contract includes client's commitment of to achieve specific sustainability objectives, which corresponds to a reduction (bonus) or increase (malus) applied to the Fixed interest Rate, based – respectively – on the achievement or not-achievement of the sustainability objectives.

In general the parties agree to offset the two interest payments, so that only the amount in excess at the end of each interest period is actually paid. If the floating interest rate and/or the fixed interest rate is negative, the direction of the respective interest payment changes.

The notional amount of the Sustainability linked Interest Rate Swap Protetto serves merely to calculate the respective interest payment. There is no amount payable/receivable equal to the notional amount.

You can enter into this product also in a foreign currency.

Sample product details set out below have only an illustrative purpose, are based on predefined realistic assumptions and may not match your specific contract details.

Term	5 years	Notional amount	EUR 10,000
Client pays (fixed interest rate)	3.38% p.a. quarterly payments day-count convention Act/360	Client receives (floating interest rate)	3 months EURIBOR quarterly payments day-count convention Act/360
		Floor rate	1.50% p.a.
Day-count convention	act/360 means: Interest days in the counter are based on the number of calendar days. The calendar year in the denominator is set for 360 days. 30/360 means: The calendar month consists of 30 interest days. The calendar year is set for 360 days.		

Intended retail investor

This product is designed for retail investors who

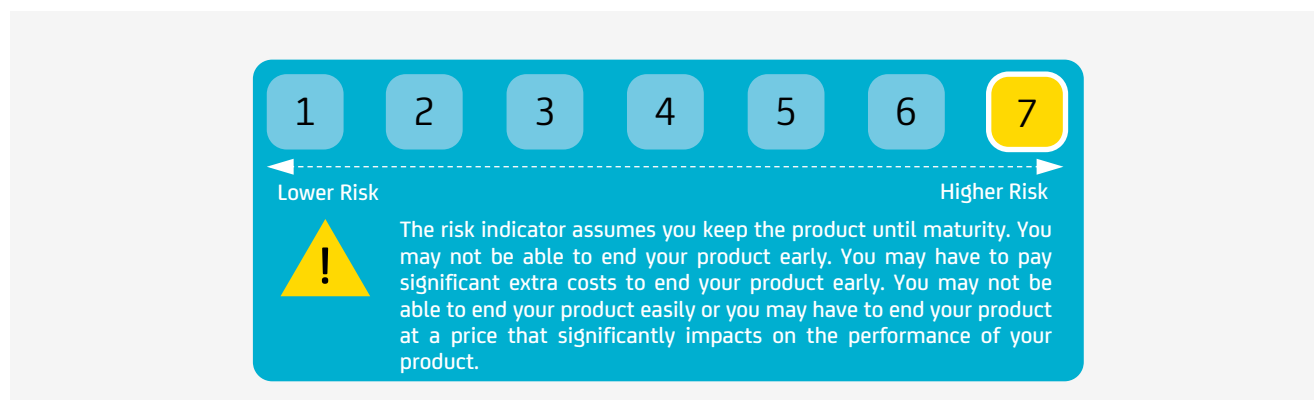

- (i) hold this product for the contractually agreed term,
- (ii) are in the position to bear losses that may be unlimited and
- (iii) have above-average theoretical knowledge of, or past experience with packaged retail and insurance-based investment products (PRIIPs) that may be complex and difficult to understand and the financial markets.

2. What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 7 out of 7, which is the highest risk class.

In some circumstances you may be required to make payments to pay for losses. **The total loss you may incur may be significant.**

This product does not include any protection from future market performance so you could incur significant losses.

If we are not able to pay you what is owed, you could incur significant losses.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example notional amount:		EUR 10,000	
Scenarios		If you end after 1 year	If you end after 5 years
Minimum scenario	There is no minimum guaranteed return. You may have to make further payments to cover losses.		
Stress scenario	What you might get back after costs	EUR -596	EUR -940
	Average return/loss over notional amount each year	-6.0%	-1.9%
Unfavourable scenario	What you might get back after costs	EUR -507	EUR 168
	Average return/loss over notional amount each year	-5.1%	0.3%
Moderate scenario	What you might get back after costs	EUR -474	EUR 960
	Average return/loss over notional amount each year	-4.7%	1.9%
Favourable scenario	What you might get back after costs	EUR -465	EUR 2,100
	Average return/loss over notional amount each year	-4.7%	4.2%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back or pay.

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes, which have been calculated based on simulations using the past performance of the reference rate over the past 5 years. The stress scenario shows what you might get back or pay in extreme market circumstances.

This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before the end of the recommended holding period. You will either be unable to cash in early or you will make a large loss if you do so.

3. What happens if UniCredit S.p.A. is unable to pay out?

The investment on this product is exposed to the credit risk, meaning in the case UniCredit S.p.A., as a result of the reduction of its solvency due to financial trouble, bankruptcy, insolvency or over-indebtedness, becomes unable to fully repay the amounts that are due in relation to this product. In the case, you may lose in full or in part the payments you made or suffer unlimited losses.

Furthermore, according to the applicable law on "Bail-in", the competent resolution authorities may take certain resolution measures, such as the early termination of the derivative transactions. In this case, you are exposed to the risk of partial or complete reduction of your claim or in a conversion of your claim in to equity, in a permanent way, even without a formal insolvency declaration by UniCredit S.p.A.

This product does not benefit from the guarantees provided by the Interbank Deposit Protection Fund.

4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- The product performs as shown in the moderate scenario.
- A notional amount of EUR 10,000

	If you end after 5 years (Recommended holding period)
Total costs	EUR 268
Annual cost impact (*)	0.5%

(*) This illustrates how costs reduce your return in relation to the notional amount each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.4% before costs and 1.9% after costs.

Composition of costs

One-off costs upon entry or exit		If you end after 5 years
Entry Costs	These costs are already included in the price you pay.	Up to EUR 268
Exit costs	Not applicable	

5. How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period is equal to the contractually agreed term. You are not entitled to terminate the product unilaterally before the end of the contractually agreed term. This does not apply in case you have contractually agreed with UniCredit S.p.A. that one party or both parties have the right to prematurely terminate this product upon notice to the other party and subject to a compensation payment (contractual early termination clause).

6. How can I complain?

You can make complaints about the product, or about the behaviour of the manufacturer of the product or of the persons that provide advice regarding or who sell the product, on the Internet website www.unicredit.it, or by registered mail return receipt or via e-mail to: UniCredit S.p.A Customer Satisfaction Italy & Claims, Via Del Lavoro, 42 - 40127 Bologna, Email: Reclami@unicredit.eu, Tel.+39 051.6407285 - Fax +39 051.6407229, PEC (certified email address): Reclami@PEC.UniCredit.EU

7. Other relevant information

Additional product information is available on request. UniCredit S.p.A. reviews this Key Information Document at least once a year. The latest version of the document is available for you on website www.unicredit.it/KID. You can obtain at UniCredit S.p.A. branches, on request, free of charge, in paper format, the latest version and the older versions of the Key Information Document. Specific information on this product are available in the "Scheda Informativa", that UniCredit S.p.A. must deliver to you before entering into each new transaction.

Further information on OTC derivative instruments can be found in the "Documento Informativo" which UniCredit S.p.A. must deliver to you and is available on the website <https://www.unicredit.it/it/info/normativa-mifid.html>
